JOHN MURPHY & CO.

1886.

NOTICE.

In again presenting my Spring Catalogue, I do so with much pleasure, having added largely by importation of everything new and valuable among the various classes.

The prices at which some of the new plants are offered, may appear high to persons unacquainted with the importation of these articles. For such I have to pay high prices in Europe, adding freight, risks, &c., to justify which when first offered, the price should be proportionate—though I make it at the lowest possible rates, and as stock increases the price is reduced. Older and standard varieties are offered at my usual very moderate rates.

The description of the new plants are those of the parties who sent them out.

When selections are left to me, the very finest varieties will be sent, and the most vigorous plants.

After over thirty years' experience in packing and forwarding plants to distant countries, I flatter myself I can pack both economically and safely for any distance.

No charge is made for boxes or packing.

Plants, Bulbs, &c., at the single rate, will be mailed free; but when ordered by the dozen or hundred, the single price or a sufficient amount must be remitted to cover postage. On their reception they should be potted and placed in a frame or green-house to recover the effects of the journey. To Florists and Nurserymen who wish new plants, the mail offers the greatest facility for obtaining such, as they know how to care for them on their arrival. Amateurs who have no means of caring for plants after a journey through the mail, as well as all persons requiring a considerable quantity of plants of a larger size, had better have their orders by express. If left to me, I will forward in such a way as I deem best for the purchaser.

In all orders by express, good plants are added in proportion to the value of the order or distance. Persons getting up clubs will be liberally rewarded with choice plants in proportion to the amount remitted.

Orders intended for mailing should be accompanied with a remittance; not less than \$1.00 worth sent in each order. But in express orders the purchaser may remit, or the article will be forwarded C. O. D. at his option.

In making out orders, keep plants and seeds separate—it save us much time at our busy season.

Write your name plainly; give post-office, county and State, whenever you write, no matter how frequently.

In all letters of inquiry, it is well to leave a blank space between each question for an answer; this facilitates a reply in the busy season, when my correspondence is very heavy.

Please use the order sheet, or in a list apart from the body of the letter. This much facilitates business and prevents errors. In making out orders please affix prices, that I may know the size of plants required.

Customers who fail to receive a catalogue in due time, will please inform us of the same, that a copy may be sent, as catalogues are frequently lost in the mails.

This catalogue annuls prices in all former issues.

JOHN SAUL.

January, 1886.

CATALOGUE

— OF —

NEW, RARE AND BEAUTIFUL PLANTS.

New, Rare and Beautiful Plants.

	Each.		Each.
* AMERICAN BEAUTY , (New Rose), a very distinct rose, flowers large and double of a reddish crimson, with a rich H. P. fragrance; an admirable forcing rose, every shoot terminated with a flower; for forcing there is no large full rose to equal this. 25 cts. in 3 inch pots after April 1st.....	50	dazzling crimson color of General Jacqueminot, and delicious fragrance of La France, a free vigorous grower and profuse bloomer; the finest high colored rose for winter forcing. 25 cts. in 3 inch pots after April 1st.....	50

Shakespeare, fine truss, color rich solferino, with white eye, very fine.....	25	The above 45 new and beautiful varieties for \$15.00.	50
Sœur Pauline, enormous umbels, salmon-rose, with a white eye, extra.....	25		

NEW REGAL PELARGONIUMS.

This name is applied to that magnificent group of Pelargoniums the flowers of which are of large size, very rich and showy; a few are double, and although the others are not really double, yet from their fulness of form and the extra number of petals, they have the appearance of being so.

Pelargonium, Beauty of Oxtou, the upper petals are of a very rich maroon, darkly blotched; under petals very dark crimson, shaded with maroon; light centre; all the petals margined with white and beautifully fringed.....	50	Pelargonium, Mme. Gustave Henri, see Novelties, p. 3.	
Captain Rakes, the trusses are large, whilst the individual flowers are large and full, upper petals deep fiery crimson, flaked with purplish black and bordered with carmine; lower petals clear, bright, fiery crimson.....	50	Mrs. John Saul, (<i>colored plate</i> in 1878), this beautiful flower, which originated in our establishment, we consider one of the very best in cultivation. The habit is compact and very free flowering, producing large trusses of charming flowers. The color is a rich glowing vermilion, with light centre and light margin to the petals.....	50
Duchess of Bedford, one of the most useful. Its blossoms are of the purest white, prettily fringed, with a feathered spot of delicate rose in the upper petals. Its habit is dwarf and compact.....	50	Madame Evard, a most distinct variety; the flowers are very full, with beautiful crisp petals of an exceedingly bright purplish crimson color, richly spotted with dark maroon.....	50
Dr. Masters, a splendid variety. The trusses are large and in great profusion; it is semi-double, the upper petals having large black blotches in the centre, with a narrow margin of rich crimson, the lower petals having a smaller blotch.....	50	Madame Thibaut, white, richly blotched and marbled with rose; the upper petals marked with crimson maroon; large white centre; immense trusses of very large fine flowers, with undulated petals.....	50
Elegantissimum, a beautiful variety, with large crispy semi-double flowers, of a rich vermilion color, all the petals broadly margined with white.....	50	Maid of Kent, an attractive variety, of neat dwarf habit and extremely free blooming; the flowers are pure white, with bright rose-colored spots on all the petals, which are beautifully undulated and fringed.....	50
Empress of India, white pencilled with violet rose, petals beautifully undulated and frilled; very beautiful.....	50	Prince of Novelties, double flower and truss large, the ground color a brilliant carmine tinted crimson, with a bluish white margin, each petal being marked at the base with a rich dark crimson blotch.....	50
Le 20 Fevrier, in the style of Prince of Pelargoniums; color brilliant orange vermilion blotched with maroon on upper petals, lower petals light color, nicely fringed, magnificent.....	50	Theophrasta, a very beautiful Pelargonium, flowers double crimson, freely produced; a very desirable variety.....	50
Mme. Bouchalet, a beautiful double flower, white, centre of petals purple; rich, extra.....	50	Ville de Caen, a very novel variety, of a scarlet maroon color; very large pips.....	50
		Venus de Milo, very fine trusses of pure white, nicely striped.....	50

PELARGONIUMS.—New Varieties with Fringed and Striped Petals.

Pelargonium, Anna Pfitzer, upper petals rich carmine; lower petals amaranth, light centre.....	50	Pelargonium, Macauley.....	50
De Brazza, carmine rose, white centre, deep maroon blotch; very fine.....	50	Marie Lemoine, a very beautiful variety, large truss and flower, color white, beautifully fringed; in the way of Empereur des Pelargoniums, but of much finer form and greater substance; extra fine.....	50
General Thibaudin, rich carmine orange bordered with white; white centre, grand trusses.....		Miss Teresa M. Saul (<i>Saul</i>), in habit similar to our two preceding, and of free growth and profuse bloomer; beautiful trusses; color of upper petals orange vermilion, with dark blotch; lower petals lighter shade, centre white.....	50
Gidour, upper petals deep maroon, surrounded with fiery crimson, and margined with deep rose; under petals bright rosy pink, spotted with dark crimson; a splendid flower.....	50	Miss Mary C. Saul (<i>Saul</i>), this beautiful new flower originated in our establishment; trusses large and finely formed; deep rich crimson, dark blotch, smooth edge; a lovely flower. This is a strikingly rich and beautiful variety.....	50
Gueltes et Gibelins, a beautiful flower satiny lilac; white centre.....		Miss Rosina M. Saul (<i>Saul</i>), another of our beautiful varieties, profuse bloomer; fine trusses; color upper petals crimson, with dark blotch; lower petals light crimson; centre white, all beautifully reticulated with crimson, slightly frilled.....	50
Geant des Batailles, bright crimson, very dark blotch.....	50	Orissa, upper petals light purplish crimson, feathered and blotched with maroon; under petals soft violet-rose, marked with crimson; an attractive flower.....	50
Improved Triomphe de St. Maude, very vigorous with large trusses of rich crimson flowers, dark blotch; a fine market variety.....			
Jordaens, a rich rose carmine, bordered with white, white centre; maroon blotches; a beautiful variety.....	50		
John Bright.....	50		
Lucie Lemoine, a chaste and beautiful new flower, grand umbels of purest white flowers, perfect form and shape, fine, compact, vigorous habit.....	50		
Mrs. Potten, this is a charming variety; habit good and compact, trusses large, finely formed; color purest white, with very dark blotches.....	50		

	Each.		Each.
Pelargonium, Princess of Wales , very handsome, with elegant frilled petal margins, trusses large size, ground color pure blush, each petal alike marked with a rich dark velvet crimson scarlet margined blotch.....	50	Pelargonium, Panorama , violet, dark blotch....	50
Queen of Stripes , color elegant blush white, the petals being finely striped or barred with brilliant carmine-rose, each of the upper ones being marked with crimson lines surmounted with an intense crimson blotch.....	50	Queen Victoria , the flowers of this handsome variety have peculiarly crispy petals of a rich vermillion color, margined with pure white, the upper ones blotched with maroon; extremely attractive.....	
		Wm. Pfitzer , rich crimson with very dark blotch; centre white; beautiful.....	
		Waldeck-Rousseau , white centre, petals carmine violet, large fine trusses; beautiful.....	

DECORATIVE PELARGONIUMS.

The varieties here offered are largely grown for Covent Garden Market, London.

Pelargonium, F. A. Dickson , upper petals bright cherry, lower pink, profuse bloomer, a very fine variety.....	50	Pelargonium, Miss Maller , a decorative plant.	50
Integrity , very free compact habit, free bloomer, color orange scarlet, white centre, purple blotch,	50	Miss Weatherill , rosy crimson suffused with orange white centre, small blotch, beautiful pure white, fine free bloomer.....	50
Lady Isabel , a beautiful mauve with puce spots all round.....	50	Memoris , free, but compact habit, an early and profuse bloomer, rosy crimson, light centre, purple blotch, fine pot plant.....	50
Mabel , dark maroon top, narrow edge, a heavily painted flower, fine free habit and bloomer....	50	Scarlet Gem , very bright crimson scarlet, with light margin, fine free habit, early and profuse bloomer.....	50
Mrs. H. Buck	50		

NEW PLANTS.

*ALOCASIA SANDERIANA.

A remarkable handsome and truly grand Arad, and one of the finest stove plants. It has erect petioles, which are brownish green, and striately mottled; on the young leaves the color is bright glossy green, and on the older leaves the surface has a metallic blue reflection. The leaf-blade is arrow-shaped, the front portion with about three triangular lobes on each side, the basal portion with one or two smaller lobes; the thick costa and the stout cross veins are white, conspicuously bordered with ivory-white, the margins also being white. This is certainly the most beautiful of all the Alocasias, and a most magnificent foliage plant. Ready in May.

*AMASONIA PUNICEA.

"This is unquestionably one of the most beautiful plants that have been brought under the notice of Horticulturists for many years. The inflorescence is very brilliant, being particularly striking from having a series of the richest vermillion-crimson Poinsettia-like bracts, the lowermost of which are four inches long, are very persistent, remaining in perfection two months. From the base of each bract are produced pendulous flowers, in twos and threes of a creamy white color, offering a striking contrast to the rich coloring of the other parts of the inflorescence."

"Not only an extremely handsome plant, but absolutely distinct from every other plant in cultivation," *The Garden*. Ready in May.

*IPOMCEA THOMSONIANA.

A beautiful new species, in habit much resembling the well-known *I. Horsfalliae*, the flowers, however, which are borne in clusters, are pure white and much larger, being about three inches in diameter at the mouth. It has thick fleshy leaves and from its free-blooming character, cannot fail to become one of the most popular and useful of stove-house climbers. \$1.50 each.

*PASSIFLORA "CONSTANCE ELIOTT."

This charming novelty is a seedling from *Passiflora cærulea*, and has been awarded a first-class certificate by the Royal Horticultural Society. It is hardy, a free grower, and produces in the greatest profusion sweet scented, pure ivory-white flowers, almost without a trace of the bluish tinge peculiar to the type. The inner surface of the sepals and the petals is white; the coronal threads being ivory-white, tinged with yellow towards the tips. 50 cents.

PRIMULA ABCONICA.

A new pretty and interesting Primula, with flowers of a soft lilac shade, flowering continuously and profusely from spring till autumn. 50 cents.

*IBERIS SEMPERVIRENS PLENO.

There can be nothing prettier than the double white Candytuft for edging, beds, borders, rock-works, &c., and it is of particular value to the Florist. The flowers form a close bouquet of the purest white and cover the dwarf compact and beautifully rounded bush. The plant is well adapted for pot-culture, but its beauty will be more perfectly developed if planted out in the garden. The flowers appear in great profusion from April until June. \$1.00.

*ANTHURIUM FERRIERENSE.

A splendid hybrid obtained from *A. Ornatum* and *A. Andreanum*. The slender, erect foot-stalks of the leaves support a fine, bright green heart-shaped expansion, fully twelve inches long and six inches broad. The scape is stout and erect, attaining a length of twenty-four to thirty inches. The spathe, which is remarkably showy and attractive, is of cordate form five to six inches across of a rich, rosy carmine, without any of the reticulated corrugations characteristic of *A. Andreanum*. The spadix is about five inches long, ivory-white to two-thirds of its length, with the upper third fawn color. \$2.50 to \$5.00.

*ANTHURIUM ANDREANUM.

The flower-spathes, which are borne well above the foliage, are heart-shaped and of a most brilliant scarlet color, the surface irregularly corrugated and traversed by deep sinuous veins; the spadix is ivory-white at the base, and greenish-yellow at the tip. It is an extremely attractive plant, and the individual flowers remain in perfection about three months, thus rendering it highly valuable for exhibition. \$2.50.

*NEW DOUBLE BOUVARDIAS.

	Each.		Each.
Bouvardia, Sang Lorraine, a free-flowering variety, producing fine corymbs of large double flowers of a brilliant vermilion color...	1 00	Bouvardia, V. Lemoine, the fine imbricated double flowers of this variety are of a fiery scarlet color, produced in large corymbs in the freest manner, the plant being extremely floriferous.....	1 00
Triomphe De Nancy, a vigorous and floriferous variety, with large compact corymbs of well-formed double flowers of a beautiful orange-salmon color.....	1 00		

*NEW TUBEROUS ROOTED GRAPE VINE.

A recent introduction, consequently not fruited or tested; as it comes from a warm climate—Cochin China—we may infer it will require heat to succeed. Two varieties—round and oblong. 50 cents each.

NEW DIEFFENBACHIAS.

*Dieffenbachia, Jenmanii, the ground color of the leaves, a rich bright glossy green, is relieved by a milk-white band at every lateral nerve and by a few white spots interspersed between the bands. The bands and spots are semi-transparent so that the foliage has the same variegated appearance when viewed from beneath as from above. The striking variegation, renders it one of the handsomest

of Stove variegated plants. "One of the most striking new foliage plants that has come under our notice."—*Gardener's Chronicle*. "A very handsome new species and a real acquisition."—*The Garden*..... 2 00
 *Dieffenbachia, Magnifica, a truly magnificent plant, vigorous, distinct and fine habit; with large green leaves spotted and marked with pure white. One of the finest Dieffenbachias... 1 00

*NEW YUCCAS.

*Yucca, Filamentosa Aureo-Variegata, this is one of the most ornamental of Yuccas with colored foliage yet introduced. It is distinguished from the normal form by the middle portion of the leaves being marked with bright yellow longitudinal bands. It will prove a

valuable addition to the list of foliage plants for the decoration of the conservatory and greenhouse..... 2 50
 *Yucca, Pendula Variegata, a very handsome variegated Yucca of free growth, quite hardy, 2 50

*MELON PEAR OR MELON SHRUB.--Solanum Guatemalense.

"A very delicious fruit from the Highlands of Guatemala, and now being cultivated in California. It will likely succeed in the South. The fruit is of the size of a hen or goose egg, or even larger, and very much of the same shape. The color is lemon or pale orange with streaks or waves of bright violet, the whole making a fruit unrivaled in beauty. The interior of the fruit is a solid pulp similar to that of a pear, also of a pale yellow color, and of a taste resembling that of a fine musk-melon, but which has besides a most charming acid, so wholesome and so delicious that when the fruit is partaken of on a very warm day, it allays the thirst for several hours. The plant is an enormous yielder. I have seen plants of small size, say two by two feet, bear 30 large fruit which from their size and weight pressed the branches to the ground, and thus formed a most beautiful border all around the plant. The melon shrub can stand light frost, but heavy frost will cut it to the ground. The dead branches should then be cut off, the plants covered with an inch or so of soil or straw, and will, if so protected, start up in the spring as vigorously as before." \$1.00.

*MEDINILLA CURTISII.

A beautiful Stove plant of bushy habit. The flowers are produced in great numbers in terminal and lateral paniced cymes on flower stalks of a beautiful coral red. Each flower is about half an inch in diameter, and has an ivory white calyx and a creamy white corolla, which show to great advantage the central tuft of purple stamens.

The neat and compact habit of the plant, the profusion with which its chaste flowers are produced, and which continue in perfection for many weeks in the autumn, render this one of the most valuable plants of recent introduction. \$2.00.

DRACÆNAS.

*Dracæna, Lindeni, one of the most brilliant acquisitions recently made among fine foliaged plants. The stem is erect and simple, the leaves which are deep green are traversed by bands of creamy-white and yellow, handsomely variegated, a most distinct and striking variety. It is a plant which will gain a high reputation.....

*Dracæna, Massangea, centre of leaf pale yellow, green margin, a very superb and distinct variety. This superb plant like D. Lindeni, will be extensively grown as they are two of the most distinct and graceful of decorative plants.....

*FICUS ELASTICA VARIEGATA.

An attractive variety of this useful plant, the leaves being striped and marked with creamy yellow.

HELICONIAS.

Each.

Each.

**Heliconia, Aureo-Striata*, a plant of noble aspect, resembling some dwarf *Musa*, the leaves are striated with green and yellow, and become recurved at the top. The leaf deep green with the course of the parallel-curved veins, which run out from the costa to the margin, traced out by yellow lines producing a very striking variegation..... 2 50

**Heliconia, Triumphans*, very ornamental plant with bright green leaves, lined with greenish-black. It is a robust species having the habit of a *Maranta Zebrina* with shining foliage and which succeeds well in apartments. It is a native of Sumatra..... 2 50

*AGLAONEMA PICTUM.

This is a brilliant Aroid, with a fine rounded stem. The leaves vary in form, sometimes elliptical, oblong-lanceolate, are rounded at the base and almost suddenly acuminate at the top, from 4 to 7 inches long, and 2 to $2\frac{3}{4}$ in width; they are of a lovely deep velvety green, beautifully mottled with large spots and irregular markings of a whitish blue. The mid-rib is prominent and slightly channelled on the upper face. When it is in flower it is still more attractive. The spathe is remarkable for its curious pocket-like form and its knotty spadix. \$1.50.

*SCHISMATOGLOTTIS LAVALLEEI.

"In announcing this lovely plant we are convinced that it will become popular among lovers of fine-foliaged plants. It may be distinguished at a glance from all other species in cultivation. The texture of the leaf is flexible, the mid-rib is slightly prominent on the upper surface, and of a beautiful bright green, on which are scattered numerous silvery white spots, producing a most pleasing effect." \$2.00.

*CROSSANDRA UNDULÆFOLIA.

This is a dwarf, shrubby plant, rarely exceeding a foot high, with spreading ovate-lanceolate evergreen leaves. It flowers freely in the summer, and continues in bloom for several weeks. The flowers are produced successively along an erect spike 2 to 3 inches long, formed "into a four-sided kind of strobilus by numerous opposite acutely keeled hairy bracts," in which the calyx of the flowers is concealed; the corolla is bright orange-yellow tinted with rose. \$1.00.

NEW BEGONIAS.

**Begonia, Ville de Namur*, this beautiful foliaged *Begonia* is in style of *Louise Chretien*, but superior. The finest that have been introduced for some years..... 1 00

**Manicata Aurea Maculata*, this very beautiful *Begonia*, has its fine foliage blotched and spotted with yellow, similar to the well known *Farfugium grande*, a grand foliage plant..... 1 00

Socotrana, a species of remarkable interest both in its scientific and in its horicultural aspect discovered in the island of *Socotra*. *B. Socotrana* is a plant of very neat habit with erect stems 8 to 12 inches high, furnished with orbicular peltate leaves 4 to 7 inches in diameter, and producing a profusion of bright rose pink flowers of which the males are fully two

inches in diameter. Its great recommendation is its very free blooming character, and its flowering in the depth of winter when other *Begonias* are at rest, thus prolonging the season of these beautiful plants..... 50

**Begonia, Gosoensis*, a beautiful new foliage *Begonia*..... 1 00

Diadema, a species of incomparable beauty and moreover a distinct type. From the short, fleshy stem branch out numerous leaves, erect, of a delicate green, and marked with white elongated blotches. The leaves are perfectly smooth and shiny. The ground is a clear green, whereon numerous white strains are scattered, without regularity, in bands or longitudinal lines..... 50

*GEISSOIS RACEMOSA.

A beautiful new plant from New Caledonia. As a decorative plant it will be found very distinct and striking. \$2.50 each.

*SELAGINELLA GRANDIS.

A handsome erect-growing species, with large, broad, recurved, grass-green fronds, much branched, the divisions half an inch broad, densely clothed with distichous, imbricating, subfalcate. \$1.00.

HYDRANGÆA ROSEA.

This pretty Japanese *Hydrangæa* is of free growth and a profuse bloomer. Flowers bright rose. 50 cents.

*CIENKOWSKIA KIRKII.

A rare and beautiful plant; has fleshy roots, flowers during summer. \$2.50 each.

*COLOCASIA NEO-GUINENSIS.

A new aroid, it is remarkable for its tufted habit, the shortness of the leaf stalks, and its short-stalked inflorescence, and the beautiful green tone of its smooth and shiny leaves, spotted with creamy white. It will form an interesting addition to collections of Aroidaceous plants, and probably may prove valuable for the embellishment of the out-door garden in summer, like *C. Esculenta*, now so much cultivated. 75 cents.

*HIBISCUS CHRYSANTHUS.

A very distinct new species from Natal; very large flowers, yellow, purple-crimson at base. \$1.50. Ready in April.

HIBISCUS ROSA-SINENSIS.

	Each.		Each.
Hibiscus Rosa-Sinensis, Lucien Linden, this splendid ornamental shrub is without doubt one of the best varieties of the kind. The flowers are large and very double, of a pale yellow color, beautifully streaked with spots and lines of brilliant red.....	50	Hibiscus Rosa-Sinensis, Zebrinus, a very distinct and handsome variety with double flowers, which are beautifully flaked and striped; the five outer petals scarlet edged with creamy yellow in the lower part; at the apex, of a creamy yellow, irregularly striped and flaked with scarlet.....	40
Magnificus, a grand variety of this fine plant. Flowers rich crimson magenta.....	40		

*PIPER METALLICA.

A very decorative plant, with round leaves, thick and of a beautiful sparkling metallic green, a native of Borneo. An exceedingly pretty plant. \$1.00.

PELLIONIA PULCHRA.

An exceedingly pretty trailing plant, with light green foliage marked with dark spots. A charming trailing plant. 50 cents.

EXACUM AFFINE.

A new species from Sokotora, forming small, compact bushes about 6 inches high, with terminal clusters of violet-purple, beautiful Cyclamen-scented flowers. It produces its flowers very freely and incessantly from February till November; being in consequence a desirable addition to free forcing plants. 30 cents.

IMPATIENS SULTANA.

A very beautiful plant from the East coast of Africa. The plant is a free grower and continuous bloomer, color of flowers a rich carmine magenta. 25 cents.

STREPTOSOLEN JAMESONII.

An exceedingly fine free flowering plant of compact bushy habit, flowers opening bright orange, passing to cinnabar red, nearly an inch in diameter. A really valuable plant. 25 cents.

JASMINUM GRACILLINUM.

Jasminum Gracillimum is one of the most distinct in its graceful habit and in the abundance of its large sweet-scented flowers, which are also more copiously produced. It appears to be a small species, with long, very slender branches springing from low down on the stem, and curving over on all sides, weighed down by terminal globose panicles. A flowering shoot is produced from every joint, which terminates in a dense cluster of pure white fragrant flowers. 30 cents.

ANTHURIUMS.

**Anthurium, Veitchii*, a very handsome Aroid of striking aspect. The leaves are ovate-oblong, greatly elongated, attaining lengths of from 2 to 3 feet, with a breadth of less than one-third of these dimensions; coriaceous in texture and deep green, with a glossy metallic surface when first expanded, becoming paler by age. The principal nerves are arched and deeply sunk, giving the surface a conspicuously waved appearance. As an exhibition or decorative plant it will always take a very high position. First class certificate from the Royal Horticultural Society. Price on application.....

**Anthurium, Warocqueanum*, a remarkable Aroid. The leaves are greatly elongated, attaining lengths of from 24 to 30 inches, with a breadth of not more than 7 or 8 inches. The ground color is a deep green of a very rich hue, with a velvety lustre and appearance, with which the light color of the midrib and veins form a pleasing contrast. To the lovers of fine foliage plants this beautiful *Anthurium* will be a most welcome acquisition.....\$1.00 to 2 50

ALOCASIAS.

**Alocasia, Thibautiana*, a splendid foliage plant of stately and robust habit, and without doubt *by far the finest* of all *Alocasias*. For exhibition purposes it stands in the first rank among foliage plants, and in the Stove it forms one of the most distinguished ornaments. A first-class certificate was awarded to it by the Royal Horticultural Society.....\$1.00 to 2 50

**Alocasia, Hybrida*, an exceedingly beautiful Hybrid, sent out by Messrs. Veitch & Sons. It is of free growth, with exceedingly beautiful foliage with a metallic hue, in the way of *A. Veitchii*, but much finer; will make a grand specimen plant for exhibition, &c.....\$1.00 to 2 50

*GLOBBA COCCINEA.

The stems are much crowded, 12 to 18 inches long, and gracefully arching on all sides, giving the plant a very elegant contour. They are furnished with deep green leaves and terminate in a dense raceme of flowers, of which the bracts are scarlet and the perianth yellow. The plant is continuously in bloom during the greater part of the year. The elegant habit of this plant, its richly colored flowers of singular structure, and their long duration, render it a most useful and interesting plant. 75 cents.

*HIGGINSIA RÆZLI.

A very beautiful new tropical plant, with dark bronzy leaves, streaked and marbled with white. 50 cents.

POTHOS.

	Each.		Each.
* <i>Pothos, Celatocaulis</i> , this plant is a handsome and interesting climber, lying perfectly flat upon the surface it climbs over, being held in position by its numerous adventitious roots; and as it is a rapid grower, it is admirably adapted for covering walls, &c.....	30	* <i>Pothos, Aurea</i> , the leaves are strikingly variegated, irregularly marked by bands or fantastic-shaped blotches of creamy yellow, here and there suffused with pale yellowish-green. An ornamental object in the plant stove.....	30

PAVONIAS.

* <i>Pavonia, Wioti</i> , the outer calyx consists of two whorls of narrow slender bright red bracteoles, the outer whorl shorter than the inner, which equals the closed corolla. Both the latter and the calyx are of a red-black. It flowers continuously throughout the year, but most freely in the winter months	50	* <i>Pavonia, Makoyana</i> , its corymbs of flowers are peculiarly attractive from the bracteoles being large and of a bright rosy carmine color, forming a striking contrast with the dark purple corolla. The plant is extremely floriferous, and the blossoms remain a long time in perfection.....	50
--	----	--	----

*KÆMPFERIA GILBERTII.

A fleshy-rooted perennial, with attractively variegated foliage. From the succulent roots are annually produced a tuft of oblong-lanceolate deep green leaves, which are slightly undulated at the margin, and bordered by a broad and very conspicuous band of white. The purple and white flowers are peculiar in form.

MONTBRETIAS.

* <i>Montbretia, Crocosmiæflora</i> , an exceedingly beautiful bulbous plant, a hybrid between <i>Montbretia Pottsii</i> and <i>Crococoma Aurea</i> —flowers in long spikes like a <i>Gladiolus</i> ; color brilliant orange and crimson.....	25	* <i>Montbretia, Pottsii</i> , a bulbous rooted plant from the Cape, requires similar treatment to <i>Gladiolus</i> ; stem $1\frac{1}{2}$ to 2 feet high, with a panicle nine inches long, bearing long, deep bright yellow flowers; tinted outside with red.....	25
---	----	---	----

ANTHERICUM PICTURATUM.

Without a doubt one of the handsomest foliage plants ever introduced, in growth equal to *A. Vitatum*, the variegation is entirely distinct, having a rich creamy white band $\frac{3}{4}$ of an inch wide running through the centre of each leaf, margined on each side with rich deep green. 30 cents.

NEW DIEFFENBACHIAS.

<i>Dieffenbachia, Illustis</i> , a stout-habited stove plant of noble character, with bold and finely marked leaves. The blade is large, oblong-ovate, distinctly cordate at the base, marked all over with irregular blotches of yellowish-green, and with a tendency to become yellow along the course of the principal ribs.....	50 cts. to 1 00	trast to the color of the leaf surface, producing fine pictorial effect.....	50 cts. to 1 00
<i>Leopoldii</i> , a South American plant of resplendent beauty. The leaves are oblong-ovate, of a rich, deep, lustrous, satiny green, traversed by a broad and stout ivory-white rib, which is bordered on each side through its entire length with a whitish band, and shows in strong con-		<i>Dieffenbachia, Splendens</i> , a plant of great beauty, remarkable for the lustre of its coloring. The stem is faintly mottled with dark and light green. The leaves have a thick ivory-white midrib, and the ground color is of a deep, rich, velvety bottle-green, with a resplendent, lustrous surface, freely marked with whitish striated blotches, which stand out in striking contrast with the dark green ground color.....	50 cts. to 1 00

*COLUMNÆA SP.

An exceedingly pretty epiphyte which we have introduced from Guatemala; grows well on a log with or without moss; it also grows freely in a pot; flowers creamy white covered with minute red spots. \$1.00.

HOYA GLOBULOSA.

We can confidently recommend it as a most useful and valuable plant, blooming profusely and thriving well under the same treatment as other Hoyas. The flowers are of a bright straw color, the coronal protuberances white, the interstices of a shining brownish-pink, forming a very pleasant contrast; the trusses large and freely produced, and the leaves of a shining green color, with dark green veins.—*Floral Magazine*. 50 cents.

BURBIDGEA NITIDA.

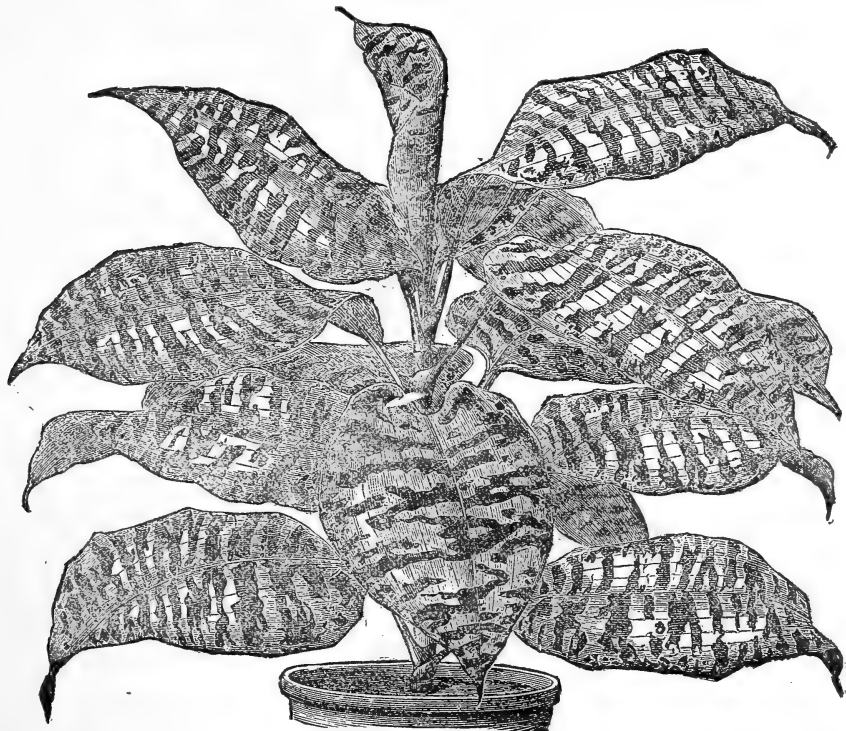

This beautiful plant is the type of an entirely new genus with the habit of *Hedychium*. It is a native of Borneo. It produces ten to thirty slender flowering stems, each bearing a panicle of 12 to 20 flowers each. The leaves are of a lively glossy green on both surfaces, and serve to set off the rich orange-scarlet colors of the flowers. Its flowers, of a rich orange hue, render it a very striking stove plant. 40 cents.

TOXICOPHLÆAS.

* <i>Toxicophlæa, Spectabilis</i> , a beautiful plant with white flowers. It is extremely floriferous, even in the youngest plants; the flowers are produced in very large corymbs, each flower being of a tubular form with expanded limbs.		It is very useful for bouquets, being delightfully fragrant as well as beautifully chaste in color, 1 00	
		* <i>Toxicophlæa, Thunbergii</i> , another beautiful species with large corymbs of pure white flowers, exceedingly fragrant.....	1 00

NEW TRITOMAS (KNIPHOFIA).—Flame or Torch Flower.

	Each.		Each.
* <i>Tritoma, Caulescens</i> , this is a very distinct plant, rising on a stem with a Yucca-like head of channelled, arching, leaves; the flower stem is from two to three feet high, surmounted with an enormous head of brilliant blossoms...	1 00	* <i>Tritoma, McOwnii</i> , a very beautiful species with orange scarlet flowers.....	50
* <i>Corallina</i> , a beautiful new plant, flowers very brilliant, coral red.....	1 00	* <i>Saundersii</i> , a vigorous plant; the flower stem is not quite so tall, and the head is conical instead of cylindrical; the flowers are red throughout; a fine addition to the group to which it belongs, and should be included in the most select collections.....	50
* <i>Leitchlini</i> , flowers rich orange vermillion, a very handsome and distinct <i>Tritoma</i>	1 50	* <i>Quartiniana</i> , this also rises on a short stem; the leaves are channelled, arching, rigid, their points touching the ground, and of a glaucous blue color; the flower stem is stout, surmounted by a large head of yellow flowers.....	1 00
* <i>Nobilis</i> , truly called "noble"; a plant of very vigorous growth, throwing up a flower stem six feet high, surmounted by a foot-long cylindrical flowerhead of bright scarlet and golden yellow,	50		

DRACÆNA GOLDIEANA.

*DRACÆNA GOLDIEANA.

One of the most magnificent ornamental foliaged plants ever introduced, and altogether unique in character and aspect. It is a native of Western Tropical Africa. The plant is of erect habit, and the stems are closely set with stalked spreading leaves, the petioles of which are of a grayish color, terete with a narrow furrow along the upper side, the base being dilated and sheathing the stem. The blade of the leaf is cordate-ovate acuminate with a yellowish green costa, and banded with dark green and silver gray in alternate straight or furcate bands the colors being about equally distributed. The back of the unrolled leaves is a pale reddish purple or wine color, and the stem where visible at the upper joints is of similar hue, the lower parts becoming green. It is, without doubt, one of the finest of all stove plants, and indispensable in all first-class collections. \$1.50 to \$2.50.

*CURMERIA WALLISII.

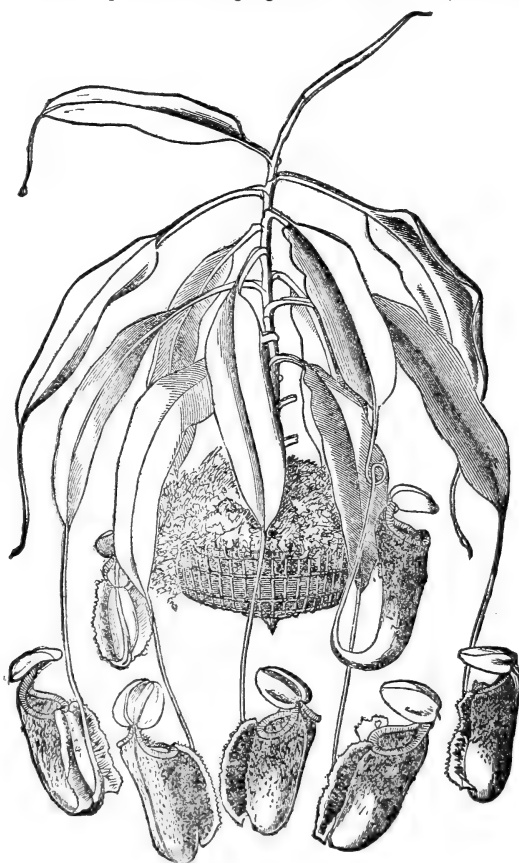

The leaves are spreading and marked with very irregular dark green maculations, some running out from the green costa and others situated near the edge. The intermediate spaces are furnished with broadish patches of very pale yellowish green, which in the more matured leaves becomes a greenish gray. The colors are about equally dispersed, though the marking is very irregular, both as to the size and form of the blotches. \$1.00.

PEPEROMA PROSTRATA.

A very ornamental basket plant, with slender creeping stems and alternate round variegated leaves. 25 cents.

NEPENTHES, PITCHER PLANT.

- Each.
- ***Nepenthes, Dominii**, a very beautiful pitcher plant, producing its large pitchers freely; color green, marbled and spotted reddish brown..... 2 50
- ***Gracilis Major**, this is a plant of free growth and somewhat compact habit; its pitchers are produced very abundantly; the ground color is dark green, over which is a profusion of dark reddish-brown spots.....75 cts. to 1 50
- ***Phyllamphora**, this plant is of very free growth, producing in great profusion moderate sized pitchers of a bright green....75 cts. to 1 50

PITCHER PLANT.

- ***Nepenthes, Morganæ**, it is of dwarf neat habit, furnished with smooth, pale green leaves with red midribs. The pitchers are flask-shaped, with two rather narrow ciliate wings; when fully grown are from six to eight inches in length. On the younger plants the pitchers are beautifully mottled with bright red and pale green; in the older plants they are almost self-colored and blood red. The lid is always pale green, offering a remarkable contrast to the richly colored ascidium or urn.....\$2 50 to 5 00

- Each.
- ***Nepenthes, Rafflesiana**, of robust growth, producing very large pitchers of great beauty, which measure from six to twelve inches in length: ground color dark green, mottled and blotched with red. Its handsome pitchers render it a general favorite..... 5 00
- ***Stewartii**, a hybrid between *N. phyllamphora* and *N. Hookeriana*; pitchers intermediate in size between the parents, with rather broad ciliate wings in front and a prominent rib behind, deep green densely spotted and clouded with crimson..... 2 50
- ***Nepenthes, Courtii**, a hybrid pitcher plant of exceptional merit. The plant, although free growing, is dwarf in habit. The leaves are coriaceous, and margined with hairs. The pitchers, which are freely produced, are flask-like, deep green in color, densely spotted or clouded with deep crimson and attain a length of from six to eight inches. The membranous texture of the pitcher is remarkably firm and durable.....\$2 50 to 5 00
- Mastersiana**, this is indisputably the finest hybrid *Nepenthes* yet obtained. It was raised from *N. sanguinea* and *N. distillatoria* Glasnevin variety (*N. Khasiana* of Science), the latter being the pollen parent. The pitchers are as richly colored as those of *N. sanguinea*, but easily distinguished from that grand species by their having the characteristic blotches of *N. distillatoria* (*N. Khasiana*), on the deep claret or blood-red ground of *N. sanguinea*. In form they are cylindric, slightly distended below, and contracted above the middle, where there is a rib or prominence; they attain a length of 8 inches, and a breadth of 2, and even more, as the plants increase in strength. This hybrid is quite distinct from every other *Nepenthes* in cultivation; it has also the additional merit of being vigorous in constitution, and at the same time dwarf in habit. A pitcher is produced from every leaf, and presents, in its rich coloration, a striking contrast to the pale green of the blade and stem.....
- ***Sedeni**, the pitchers are produced freely even on very small plants; they are of medium size, oblong, dilated at the base, narrowed above the centre; and slightly expanded towards the top, and provided with two ciliate wings; in color they are a dark green, densely covered with dark red spots. They are of dwarf and very neat habit..... 2 50
- ***Hookerii**, a magnificent species, of robust habit; the leaves are long and broad, supporting fine large pitchers upwards of four inches in length and two inches in diameter. The ground color is dark green, which is profusely streaked and blotched with dark red..... 2 50
- ***Nepenthes, Lævis**, of very free growth, producing its pitchers freely of moderate size, of a bright green color, shaded with reddish brown.....75 cts. to 1 50
- ***Hybrida Maculata**, it is of free growth, and produces its pitchers in great profusion; they are cylindric, slightly contracted above the middle, and winged, the wings being ciliated; they are stained with purplish red spots of a peculiar tint, by which this variety may be recognized..... 2 50

CRASSULA JASMINEA.

A very valuable and handsome plant, flowers white, resembling a *Bouvardia*, very fragrant. 25 cents.

ARDISIA OLIVERI.

Ardisia Oliveri is a stove shrub of remarkably striking appearance, with recurved foliage and large globular heads of flowers like those of an *Ixora*, but of pink color. The plant was introduced from Costa Rica by the late M. Endres. 40 cents.

BIGNONIA MAGNIFICA.

A free growing and extremely floriferous stove plant, of scanty habit. The flowers, which are produced in large branching panicles, are of great size (about $3\frac{1}{2}$ inches across), and of exceedingly attractive color, ranging from delicate mauve to rich deep purplish-crimson, relieved by a conspicuous throat of light primrose color. 50 cents.

PHILODENDRON CARDERI.

The leaves are cordate, broadish, of a dark shaded bottle green, with a satiny lustre, the principal ribs being marked out by bright green lines of glaucous or metallic hue; at the back the leaves are of a shaded wine purple, the course of the veins being marked by broad green lines. The glossy shaded satiny surface of the leaves imparts to them a wondrous degree of beauty. 50 cents.

ASPARAGUS.--New Species.

Florists will find in these new *Asparagus* with their delicately beautiful feathery growths, plants admirably adapted for floral work.

Each.	Each.
* <i>Asparagus, Plumosus</i> , an elegant evergreen climber with slender stems, smooth and numerous spreading branches; the white flowers are produced from the tips of the branchlets. It is an exceedingly handsome ornamental plant for the greenhouse or conservatory, and its pretty feathery growths are extremely useful for cutting for decoration. This is the finest species for florists, much more valuable than the dwarf variety.....	<i>Asparagus, Plumosus Nanus</i>
75	* <i>Virgatus</i> , of shrubby habit, elegant and feathery. Root-stock emitting several stems, the upper part of which branch in a corymbose manner; branches sub-erect, again twice branched; a feathery graceful plant.....
	50
	<i>Tenuissima</i> , another very graceful and beautiful species, of free growth, with filmy foliage; the stems of all these <i>asparagus</i> stand without withering after being cut for a long time.....
	25

ALPINIA ALBO-LINEATA.

A very striking and beautifully variegated plant, 3 to 4 feet high when fully developed. The leaves are 9 to 12 inches long, elliptic-lanceolate, pale green, marked divergently with broad bands of white and pale green. This is a grand addition to our ornamental plants, and makes a fine contrast intermixed with other foliage plants. 40 cents.

ARTOCARPUS CANNONI.

A tropical plant of exceedingly ornamental foliage of a rich bronzy-crimson tinted with purple above, beneath of a vinous red, about 1 foot long and 7 inches broad; very variable. 50 cents.

PANAX LACINIATUM.

An elegant and very distinct plant. The leaves are tinted and indistinctly marked with pale olive-brown, and form a rather complicated mass of narrow segments; they are bipinnate, nearly as broad as long, and have a drooping contour; and the pinnules or segments are very variable in size and form, presenting the appearance of a complex head of foliage. 40 cents.

CLIDAMIA VITTATA.

A splendid foliage plant, having large green leaves with a light band down centre of the leaf, of easy culture and rapid growth. 40 cents.

NEW CROTONS.

<i>Croton, Baron James de Rothschild</i> , one of the finest of the large-leaved section, with yellow midrib, changing to a rich violet-crimson; very effective and showy.....	50	<i>Croton, Carrierii</i> , a superb <i>Croton</i> , with large finely variegated foliage.....	75
<i>Caudatus-Tortilis</i> , a beautiful <i>Croton</i> with gracefully pendulous twisted leaves. Some of the leaves are deep olive-green, with a golden-yellow central band and crimson midrib; others are almost wholly yellow which becomes suffused with crimson by age; while others again are spotted and blotched in various ways, 1 50		<i>Challenger</i> , (Imperator), the variegation is very striking. The midribs are at first creamy-white, which gradually becomes suffused with red, finally deepening to bright crimson-carmine. The ground color is light green, but much blotched and streaked with light yellow that takes a rosy tint as the midrib deepens in color.....	50
<i>Chrysopsesilus</i> , a variety of bold habit. The leaves are from 8 to 10 inches long and about $2\frac{1}{2}$ inches broad. The foot-stalks and midribs are pale canary-yellow, which is also spread over the blade on each side of the midrib in irregular bands, in some cases to two-thirds of the length of the entire leaf, in others more, and in others again less; the remainder deep olive-green.....	2 00	<i>Cronstadtii</i> , in color a deep glossy green variegated with bright golden-yellow. They are twisted, curled, and crisped into a great variety of forms. The depth and richness of its coloration together with its curiously decorated leaves renders this <i>Croton</i> a most distinct and interesting decorative plant.....	1 00
<i>La Dame Blanch</i> , a very beautiful variety with long undulating foliage; the variegation is white, which marks it as distinct from other <i>Crotons</i>	1 50	<i>Evansianus</i> , the newest leaves are light olive-green with midrib and veins of golden-yellow, and the inter-spaces spotted with the same color. As the leaves become older, the green deepens and changes to a bright bronzy-crimson, and the golden-yellow of the midribs, veins and spots become a rich orange-scarlet...	50

	Each.		Each.
Croton, Fasciatus , (Hendersonii), the ground color is a very deep green, the principal veins being marked by bright yellow lines, interlacing near the edge, where, and especially near the point, the surface is chiefly yellow, with irregular small green spots. The midrib forms a brownish-yellow band.....	50	Croton, Macarthurii , the color is constant, but the markings on the different leaves are as varied as the forms assumed by the leaves themselves. The habit is <i>excellent</i> , and the variegation, fully one-half of which is yellow, is very striking. The midribs are yellow, and the bright green ground of the blades are spotted, blotched, flaked, and barred in infinite variety.....	50
Hanburyanus , the leaves are about 15 inches in length and 2½ inches in breadth. The ground color, a bright olive green in several shades, is, in many leaves, quite subordinate to the rich golden yellow and rosy crimson that suffuse the whole plant. All the leaves are beautifully marbled and blotched with these tints.....	50	Nevillii , when first expanded their midribs are bright golden yellow, and the blades light olive green barred and marked with yellow. In the mature leaves, the yellow is changed to crimson shaded with orange and the green much deepened, the whole being suffused with a metallic hue peculiar to this plant.....	50
Hawkeri , it is of dwarf and compact habit. The coloring of the plant is very effective. The middle and lower portions of the leaves, together with the footstalks, are light creamy yellow which spread over the greater part of the leaves, the extremities with the edges of the leaves only are bright green.....	50	Princess of Wales, (Glorious) , this is one of the long leaved drooping forms of Croton. The leaves are from 1½ to 2 feet in length, sometimes plane and sometimes strongly undulated. The ground color is green, and the variegation creamy-yellow, very variable in character. In some there is a creamy-yellow midrib, with a band on each side; the others, the midrib is bright green.....	50
Lancifolius , the leaf is dark green, the midrib, margin and primary veins pale yellow, which, as the plant attains its character, becomes reticulated with bright rosy pink; the whole of the leaf presenting a very charming mosaic appearance.....	50	Prince of Wales , the leaves, which are about 24 inches long and from half an inch to one inch broad, are much undulated. The midribs are light yellow with a broad band of the same color on either side; the remainder of the blade is light olive-green profusely spotted and marbled with yellow; a beautiful Croton.....	50
Mortii , the leaves are of a very dark green color, being marked out by a band of golden yellow a quarter of an inch wide, and all the principal veins also being broadly marked with yellow; these latter markings meet near the edge, where there is a variegation of broken reticulated golden lines.....	50	Queen Victoria , the ground color of the leaf is rich golden yellow, beautifully mottled with green; the midrib and the primary veins are of a rich magenta color, changing with age to a vivid crimson; the margin of the leaf is unevenly banded with carmine, often extending as far as the midrib.....	50
Stewartii , one of the most distinct Crotons of the broad leaved kinds: the habit is dwarf and bushy, and this variety colors when in a very small state. The leaves dark green, irregularly banded and margined with rich orange.....	50	Variabilis (Falcatus) , a robust variety. It has long leaves, marbled and blotched with different shades of yellow, orange and crimson. The leaves both in color and shape, are very variable; some are straight, others recurved, falcate or often distorted, their surface being either smooth or undulated.....	50
Williamsii , this is one of the red-tinted series, very strongly flushed with violet crimson. The leaf has a central band and costa of yellow, from which the pinnate veins of the same color branch out on either side. These veins all change to deep crimson and the whole plant becomes flushed with a glowing tint of crimson, shaded with violet.....	50	Extra size plants of the above Crotons can be supplied at extra prices.	

BERTOLONIAS.

* Bertolonia, Guttata , leaves dark green, profusely dotted with rose colored spots, a charming plant.....	50	* Bertolonia, Van Houttei , has the leaves of a rich olive velvet ground color, traversed broadside by large bars of beautiful magenta red, and dotted all over with thousands of spots of the same color. This description will however, give only a slight idea of the real beauty of this plant.....	50
* Rodeckii , ground color bronze, speckled with white spots, nerves fine green, edged with creamy white; a gem.....	1 00		
* Superbissima , (Jewel plant), bronzy-crimson, foliage exquisitely spotted with white; a gem, 2 50	2 50		

GOODYERAS.

* Goodyera, Dawsoniana , a very beautiful plant. The leaves blackish-green on the upper side, and very glossy, with lines of beautiful golden purple traversing from the base of the apex; flowers white.....	2 00	* Goodyera, Discolor , a beautiful plant, grows about six inches high; foliage a beautiful dark velvety color, with white markings through its entire length; flowers white.....	50
--	------	---	----

LAURESTINUS.--Viburnum Tinus.

* Laurestinus, Splendens , a variety of Laurestinus, with magnificent large flowers. A good grower and free bloomer.....	75	* Laurestinus, Pure White , the flowers of this variety are pure white.....	50
---	----	--	----

PHYLLANTHUS ROSEA-PICTUM.

This variegation is exceedingly rich and varied, no two colored leaves showing precisely the same markings with like tints. Many of the leaves are bright crimson, which is also the color of the stem during the early stage of growth; some are a light cream color, tinged with a delicate blush, others again have a dark bronzy hue, shaded with crimson; some are dark green with blotches and spots of rose, while others are tri-colored, white with different shades of rose and green. 30 cents.

HIBISCUS CARDIOPHYLLUS, (New).

I have the pleasure of offering this extremely beautiful Hibiscus, which I have received from southwestern Texas. In habit it resembles an Abutilon. My plants were bedded out the past summer and succeeded admirably, flowering profusely during the season. The flowers are bright scarlet, over two inches across, which makes it a very striking plant. A sterling novelty. 30 cents.

DICHORISANDRAS.

	Each.		Each.
<i>Dichorisandra</i> , <i>Thyrsiflora</i> , a very fine species, flowers in a thyrses of rich azure; <i>magnificent species</i>	75	* <i>Dichorisandra</i> , <i>Mosaica</i> , an extremely handsome plant, of dwarf habit; leaves large, ground color of the upper side rich deep shining green, traversed with an innumerable quantity of parallel transverse fine white lines; the upper side is of a uniform deep purple. It also produces lovely rich azure flowers.....	1 00
<i>Undata</i> , very different from <i>D. Mosaica</i> , producing large ovate leaves, very dark green in color; the midrib and veins are of a lighter green, which gives the leaves a striped or marbled appearance.....	50		

NEW FERNS.

ADIANTUMS.

* <i>Adiantum</i> , <i>Cuneatum Grandiceps</i> , one of the most distinct as well as one of the most attractive of that most useful and popular of all Adiantums— <i>A. Cuneatum</i> . It differs from the species in several striking particulars. It is more robust in habit, the fronds are more elongated, and terminate in a dense tassel of finger-like growths; the pinnae also terminate in similar but smaller branchings, and these by their weight give the fronds an elegant arching habit, rendering the plant one of the most useful of Ferns.....	1 00	* <i>Adiantum</i> , <i>Dolabriforme</i> , a beautiful evergreen Adiantum; fronds elongated, pinnate proliferous pinnules dolabriform. An exceedingly graceful Fern.....	75
* <i>Cuneatum Deflexum</i> , It was raised between <i>A. cuneatum</i> and <i>A. Bausei</i> , the latter also a so-called hybrid Fern. The characteristics of the two sorts are unmistakably blended in the new form which has the densely fronded stocky growth of <i>A. cuneatum</i> with its spreading fronds and cuneate pinnules, with the singularly deflexed pinnules of <i>A. Bausei</i> ; this hanging position of the pinnules gives the plant a very distinct appearance. "The plants are dense and compact in growth, on which account they are well adapted for grouping in small baskets and jardinettes. Their bright and cheerful green color adds much to its value as a decorative Fern".....	1 00	<i>Pacottii</i> , an elegant Maidenhair Fern, four to six inches high, with elongate triangular, tri-pinnate fronds, with densely set pinnae and pinnules; pinnules broadly cuneate and deeply cleft.....	1 00
* <i>Collisii</i> , a beautiful Maidenhair Fern of fine proportions and graceful habit, allied to the well-known <i>Adiantum tenerum</i> , but far superior to it as a decorative plant. The stipes are slender, erect, lustrous ebony-black, 12 to 18 inches high, when they become much branched. The rachides and all their branches, which are also lustrous black, spread on all sides, forming a noble triangular frond 15 to 24 inches across. As distinguished from <i>A. tenerum</i> , the fronds are more numerous, somewhat taller and much more branched, giving the plant a far more elegant contour. The pinnules are smaller, more numerous and impart a more cheerful and better furnished aspect to the plant.....	1 50	* <i>Lathomi</i> , in the way of <i>A. Ghiesbreghtii</i> , but with a drooping habit. Fronds 2-3 feet high, drooping, somewhat pentagonal in outline. Stipes stout, smooth. Pinnae pinnules, and pinnules all stalked. The larger pinnules 1-1½ inches long, trapeziform, lobed on the margin. An exceedingly graceful and beautiful Fern.....	1 00
* <i>Bausei</i> , a hybrid variety between <i>A. Trapeziforme</i> and <i>A. Decorum</i> ; in size intermediate between the two. Its peculiarity is the drooping position of the pinnules, which are deflexed sideways from the plane of the rachis; in the form of its pinnules it also differs from any other known Fern.....	75	* <i>Legrandii</i> , a pretty dwarf Fern, with small triangular fronds densely set with overlapping pinnules. Handsome compact habit, very distinct.....	1 00
<i>Luddemannianum</i> , a remarkable variety; the peculiarity consists in the pinnules being crested or agglomerated at the extremities of the stipes and their rachides; they are also much crisped and curled. Fronds erect from 8 to 12 inches high; pinnules on short petioles, generally fan-shaped, and deep green color.....	1 00	* <i>Rhodophyllum</i> , a most distinct and beautiful Maidenhair Fern. The fronds are densely crowded and attain a height of 15 to 18 inches. When first developed the young pinnules are crimson; they gradually change with age to a rosy fulvous green and finally to a soft pale green. The remarkable diversity of colors presented by the pinnules at different stages of their growth, and which are all to be seen on the plant at the same time, renders this Adiantum one of the most effective decorative Ferns yet offered.....	1 00
		* <i>Victorizæ</i> , a handsome decorative Fern of dwarf densely tufted habit. Fronds ovate, bipinnate, with about one pair of compound pinnae and 4-5 simple ones. Pinnules large, bluntly deltoid from a truncate base, or subrhomboidal deeply lobed. Sterile lobes serrate. Sori oblong or reniform at the apex of the lobes. Garden Hybrid.....	1 00
		* <i>Weigandii</i> , a very pretty and novel Maidenhair Fern, neat in habit, having the compact bunchy style of growth of <i>A. Decorum</i> . We regard this as a very distinct Fern, one of a pleasing character.....	75
		* <i>Williamssii</i> , the New Golden Maiden Hair. This splendid novelty is destined to become a general favorite, and for cutting purposes its value cannot be over-estimated. It succeeds well in a greenhouse temperature. It is in every respect quite as free and hardy as <i>A. Cuneatum</i> , and will make a fine exhibition plant. It is a native of Peru, where it is found on the mountains growing at an elevation of 12,000 feet.....	1 00
<i>Davallia Mariesii</i> , an evergreen Japanese Fern, of dwarf habit and free growth. As a basket Fern for the conservatory and greenhouse, <i>D. Mariesii</i> is one of the best. Its flexuous rhizome spreads freely in all directions, and its numerous fronds thence present an enduring globose mass of verdure. Grown in a pan, this pretty Fern is also very effective and distinct.....	30	* <i>Davallia Mariesii Cristata</i> , this is a crested form of the beautiful Japanese evergreen Fern <i>Davallia Mariesii</i> . Like the species, it is a most attractive and useful Fern for the conservatory and greenhouse, especially when cultivated in a suspended basket, over which its flexuous rhizome creeps in every direction, producing a globose mass of enduring verdure, the beauty of which is greatly heightened by the tasselled apices of the fronds and their pinnae.....	1 50

	Each.		Each.
<i>Davallia Elegans dissecta</i> , a very beautiful Fern, foliage finely cut.....	50	* <i>Gymnogramma Schizophyllum</i> , a very beautiful and distinct Stove Fern. The frond is about two inches broad, very finely cut. A remarkable peculiarity in this <i>Gymnogram</i> is seen in the furcation of the rachis at about two-thirds of its length, and where it is proliferous, every frond producing a young plant at the point of furcation. The very elegant contour of this Fern, its moderate size and graceful habit, its delicately-cut pinnules and pleasing color, render it one of the most attractive of Ferns.....	1 00
<i>Asplenium Nobilis</i> , this is a graceful Fern, with light, lace-like pinnæ and arched fronds, which somewhat resemble those of <i>A. Viviparum</i> or <i>A. Lineatum</i>	50	<i>Microlepia Hirta Cristata</i> , a very beautiful new crested Fern from the South Sea Islands. Its habit is exceedingly graceful; it is of free growth, admirably adapted for specimens, baskets, &c.....	30 cts. 50
<i>Lastrea Richardsii Multifida</i> , the plant has fronds 3 feet high, including the stipes, which are a foot long, numerous developed from a short decumbent caudex. Its bright green color, its small pinnules, and the broad crested apices with their numerous narrow divisions, give this plant a singularly elegant character, and mark it out as a very ornamental, useful Fern for the decoration of the greenhouse.....	50	<i>Nephrolepis Bausei</i> , one of the most distinct and handsome of its kind, raised by Mr. Bause, of Morland Nursery, South Norwood, from whom we have acquired the stock. The fronds are numerous, erect, exceeding a foot high, leafy from their base, and of a soft bright green. The plant has a peculiarly graceful appearance, from the pinnæ of the fronds being bi-pinnatifid instead of entire, as is the case with others of the same genus. This, and its dense dwarf habit, render it a valuable addition to our list of Stove Ferns; we also recommend it as a most useful basket Fern.....	1 50
<i>Osmunda Japonica Corymbifera</i> , a very distinct and beautiful Japanese Fern of dwarf habit. The fronds are clustered: their stipes are erect or sub-erect, quite smooth, slender, and of a bright rosy-pink color. They rise to a height of about 4 inches, and support leafy expansions of deltoid or triangular outline that bend away almost horizontally from the common centre in all directions. The compact dwarf habit of the plant, the distinct cristation of the pinnæ, and the peculiar soft color of the fronds, which offers a pleasing contrast to every other Fern, combine to give this <i>Osmunda</i> an unique character.....	1 50	<i>Duffii</i> , a beautiful and distinct Fern. The fronds are densely crowded, from 15 to 18 inches long, pinnate and much crested. The pinnæ, which are small, are produced in pairs, one overlapping the other, those above being largest. The compact elegant habit of this Fern and its bright attractive color, render it a most desirable acquisition.....	30 cts. to 50
* <i>Pleopeltis Fossa</i> , this interesting new Fern is, no doubt, a native of the Eastern Archipelago. Its pretty arching habit of growth and comparatively small size make it a very suitable object for suspending from the roof of the Stove Fernery, and its durable leathery evergreen fronds, with their elegant sinuate and lobate margins, give it a peculiar distinctness of character.....	1 50		

GLEICHENIAS.

* <i>Gleichenia, Dicarpa</i> , the color of the younger and fresher-looking fronds is a dark green, with a kind of metallic or bluish tint, and the under side is glaucous. When fully grown the pinnæ are fully 5 inches long.....	2 50	* <i>Gleichenia, Flabellata</i> , a distinct and fine species, makes a strikingly beautiful plant.....	2 50
* <i>Rupestris Glaucescens</i> , a very distinct form of <i>G. Rupestris</i> . The fronds are of a much thicker texture and very glaucous on the surface, changing with age to a bright glaucous green. A very effective variety.....		* <i>Dichotoma</i> , a very handsome species, makes a nice specimen plant.....	2 50
* <i>Semivestita</i> , a very pretty compact free growing species, makes a handsome specimen plant.....	2 00	* <i>Mendellii</i> , this is one of the most distinct and free growing kinds. It makes a handsome exhibition plant, and will also be found very useful for decorative purposes. It is a very compact growing species, requiring cool treatment. The pinnæ are of a thick texture, and very glaucous on the under side.....	
		* <i>Speluncæ</i> , a distinct and beautiful species, makes a charming specimen plant.....	

ARALIAS.

* <i>Aralia, Amboinense</i> , (<i>Sciadophyllum pulchrum</i>), a very ornamental plant with large, bright green shining foliage. A grand decorative plant.....	1 50	<i>Aralia, Guylfoylei</i> , the leaves are made up from three to seven stalked oblong-elliptic bluish leaflets; these leaflets vary in size from two to three inches long, and evenly margined with creamy white, the surface being in addition, occasionally splashed with gray.....	25 cts. to 50
* <i>Elegantissima</i> , a beautiful plant with straight erect stem, furnished at short intervals with digitate leaves on long foot stalks, mottled with white on a dark green ground; the leaflets, from seven to ten in number, are filiform, deeply and unequally serrate and gracefully pendulous. The color of the foliage is a deep green shaded with brown.....	1 00	<i>Filicifolia</i> , a plant of the first rank, graceful in habit, and well furnished with foliage, altogether one of the most valuable decorative plants. The stem and leaf stocks are purplish, marked with oblong white spots; the leaf stocks are sheathing at the base, expanding into a broad leafy limb.....	
* <i>Veitchii</i> , a very elegant plant from the South Sea Islands, producing very narrow digitate leaves, considerably undulated; upper surface deep green; under, dark crimson. One of the most beautiful decorative plants in cultivation.....	1 00	<i>Reticulata</i> , a very distinct species of free growth; a fine decorative plant.....	50
		<i>Sieboldii</i>	25 cts. to 50

PHYGELIUS CAPENSIS.

This pretty *Penstemon*-like plant I have found quite hardy, it having passed several winters out doors without protection. It grows from 3 to 4 feet high and has numerous semi-herbaceous stems, each terminated by a long branching raceme of flowers which are brilliant scarlet. It is a most persistent flowerer, beginning in May or June and continuing up to frost. This is one of the most ornamental hardy plants in cultivation.—*Garden*. 50 cents.

SALVIA GREGGII.

A pretty new species which I have introduced from Texas. This has long spikes of brilliant cherry; a continuous bloomer, very compact habit, and nearly or quite hardy in this latitude 25 cents.

ANTHURIUMS.

	Each.		Each.
* <i>Anthurium, Crystallinum</i> , the emerald green refulgent leaves are spotted all over with a brighter shade, and bordered by a broad silvery or rather crystal band, which surrounds the intramarginal and four secondary nerves. These dazzling white zones are so distinct and regular that they resemble a border of incrustated silver around the sections of the blade of the leaf.....	\$1 00 to 2 00	* <i>Anthurium, Regale</i> , this is a superb ornamental foliage plant. There are several varieties of this plant. The one now offered is the finest; the leaves are heart-shaped, much lengthened out towards the apex, and rich dark velvety green in centre.....	\$1 00 to 2 00
<i>Floribundum</i> , a very pretty species, of easy culture. Flowers pure white, freely produced.....	50 cts. to 1 00	* <i>Scherzerianum</i> , one of the most striking and beautiful dwari-flowering stove plants of recent introduction, producing beautiful brilliant scarlet flowers, each of which remains from two to three months in bloom. This charming and novel plant is easy of culture, and a most abundant bloomer.....	\$1 00 to 2 00
<i>Magnificum</i> , the foliage of this plant is truly magnificent, a noble species, with large velvet-green leaves and broad silver veins.....	50 cts. to 1 00	<i>Tetragona</i>	

ALOCACIAS.

<i>Alocasia, Jenningsii</i> , a delicate green, over which, between the principal veins, are laid heavy blotches of black, which are remarkably precise in outline and arrangement.....	25	<i>Alocasia, Sedeni</i> , very beautiful, between <i>A. Metallica</i> and <i>A. Lowii</i> . The form of the leaf is perfectly intermediate between the two parents, whilst the coloring is a very striking and pleasing combination of the metallic hue of one parent, with the dark green and prominent white veins of the other. A fine foliage plant.....	50 cts. to 1 00
* <i>Lowii</i> , a very beautiful plant with large shining foliage. Forms a fine specimen.....	1 00	* <i>Metallica</i> , a plant possessed of great beauty. Large thick shell-like leaves of a bronzy copper color. It is distinct and admirable in every respect.....	75 cts. to 1 50
<i>Macrorrhiza Variegata</i> , leaves nearly as large as <i>Colocasia Esculentum</i> , broadly splashed with white. Some leaves nearly all white. Its easy growth, combined with the rich variegation, makes it a very telling subject for exhibition.....	50 cts. to 1 00	<i>Veitchii</i> , the foliage of this plant is exceedingly distinct. A grand show plant.....	50 cts. to 1 00
* <i>Zebrina</i> , fine yellow leaf-stalk, with distinct black marks, rendering it a very conspicuous plant. It makes a grand specimen.....	50 cts. to 1 00		

ANASACANTHUS WRIGHTII.—New.

A new plant which I have received from south-western Texas. This shrub attains a height of four to five feet, bushy, flowers orange, a continuous bloomer, nearly or quite hardy. 30 cents.

SONERILA HENDERSONII.

A charmingly variegated plant, of dwarf habit. Its leaves are most elegantly studded over with silvery white pearl, or tiger-like spots upon a rich dark olive green ground. Flowers rosy lilac. This beautiful plant proves far easier in its management than any of the former species of *Sonerila*. We have found this plant a profuse bloomer during the winter. 30 cents.

PHYLLOTÆNIUM LINDENI.

A fine Aroid discovered by Mr. G. Wallis, in New Grenada, and sent by him to M. Linden, of Ghent. The plant has robust foliage, which is very persistent; the leaves are of a light glossy green, marked by bands of white, which cross the blade in almost parallel lines from a prominent midrib of the same color. \$1.00.

SENECIOS.

<i>Senecio, Speciosus</i> , the exceedingly bright and pretty magenta-colored flowers of this plant make it very attractive; it is a half hardy perennial introduced from South Africa, and is exceedingly floriferous, so much so that in a cool greenhouse its cheerful blossoms are successively produced throughout the year; they are each about one and a half inches in diameter, and are produced in large branching corymbose spikes.....	75
<i>Senecio, Pulcher</i> (Beautiful Groundsel), a half hardy perennial, a pretty plant, with rosy-crimson flowers, very showy, flowers late in summer. Figured in American Agriculturist.....	30

VERONICAS.—Shrubby.

<i>Veronica, Reine des Blues</i> (new), very beautiful spikes of blue.....	30	<i>Veronica, Reine des Roses</i> , spikes of beautiful rose color.....	30
--	----	--	----

VERONICAS.—Herbaceous.

<i>Veronica, Hendersonii</i> , a new species introduced from Japan, growth about two feet high, robust habit, foliage broad, of a deep rich green, dense and abundantly produced. The flowers are very large, rich deep violet blue, produced in large cluster heads composed of many spikes, the finest of the herbaceous section of <i>Veronica</i>	50
<i>Veronica, Elegans Variegata</i> , a very beautiful hardy herbaceous plant, with elegantly variegated foliage, long spikes of blue flowers.....	30

TECOMA STANS.

A very fine plant, from southwestern Texas, has succeeded finely bedded out with us during summer. The flowers are a rich yellow, and very floriferous. 50 cents.

APHELANDRA FASCINATOR.

A very fine species, with very ornamental foliage as well as magnificent flowers; the leaves are rich dark green, beautifully banded with silvery white, and underneath of an uniform purplish velvet; the spikes of bloom are very large and of a dazzling vermilion color. 40 cents.

CANNAS, (New).

	Each.		Each.
Canna, Adolph Weick , very dwarf compact habit, flowers of a rich crimson scarlet, shaded with orange, foliage rich pea-green. One of the dwarfest and most free flowering in cultivation.....	30	Canna, Ehemanni , the most distinct of all Cannas on account of the large oval Musa-Eusete-like soft green leaves which place it foremost among decorative foliage plants. Its most striking feature is the splendid carmine red flowers produced on flower stems of great length that unfold about 12 flowers to each of the smaller branches. These flowers are very large, and are used to advantage in bouquet-making or producing splendid effects on the lawn. See plate in <i>Garden</i>	40
Brilliantissima , by far the brightest Canna in cultivation, short-jointed, long narrow leaves, fine close habit, in color a blending of bright crimson and maroon shaded with bright glowing purple.....	50	Novtonni , this very distinct and fine Canna is closely allied to the last. Like it the foliage is large and fine. The flowers are also very large and showy, of a bright scarlet; a grand Canna.....	30
Edward Pynart , rich dazzling scarlet flowers, edged with golden-yellow; deep green foliage, very distinct and handsome.....	30		
Gladioliflora , flowers deep amber or orange colored, which are very large; foliage a deep blue green very distinct.....	30		

CAMPYLOBOTRYS GHIESBRIGHTI VARIEGATA.

A pretty variegated variety of this beautiful plant. 30 cents.

*YELLOW CALLA.--(Calla Hastata.)

An unique plant; its strong robust growth and richly colored lemon-yellow flowers mark it at once with distinctness as a plant for general purposes; the habit is deciduous, requiring a period of rest in mid-winter. 75 cents.

POSOQUERIA LONGIFOLIA.

This plant forms an elegant bush, and is very free flowering. Leaves large, somewhat ovate, coriaceous, and shining green; flowers tubular, pure white, produced in large corymbs of a dozen and more, waxy like, from 3 to 4 inches long, and deliciously fragrant. 50 cents.

PAULINIA THALICTRIFOLIA.

A very beautiful plant. It is of a slender growth, producing very freely its beautifully cut leaves, which resemble the fronds of a highly divided Maiden Hair Fern. The matured leaves are of a striking bright green, the young shoots and foliage being of a beautiful rosy tint. 25 cents.

ERIOCNEMA MARMOREUM.

Plant dwarf, with habit of some of the Begonias, leaves green, striped with bands of white; a beautiful plant. 50 cents.

*BRIDGESIA SPICATA.

An evergreen greenhouse creeping shrub, adhering to walls similar to Ivy; beautiful bloomer. 40 cents.

*CYANOPHYLLUMS.

* Cyanophyllum, Spectandum , a grand plant with large velvety leaves and whitish ribs, which grow to an immense size and are very attractive. A fine plant for flower shows, fairs, &c., as it makes a beautiful specimen...50 cts. to 1 00	* Cyanophyllum, Assamicum , a very beautiful foliage plant, large fine foliage.....50 cts. to 1 00
	* Magnificum , a grand specimen plant, having large beautiful foliage.....75 cts. to 1 00

*SPHÆROGYNE LATIFOLIA.

A plant with the grandest possible foliage, large, broad and flat, deep green on top, under side cinnamon-brown; very hairy leaves and stems; a grand specimen plant. One of the most attractive for exhibition. \$1.00 to \$2.00.

NEW SALVIAS.

Salvia, Amabilis , deep violet, shaded porcelain-blue and white. Very free bloomer.....	10	Salvia, Nigrescens , flowers of a blackish-violet and lavender colored calyx.....	10
Bethellii (Involucrata) , bright rosy-pink tipped with white, extra fine.....	10	Splendens Bruantii , a dwarf growing variety, producing fine large flowers of a velvety-red color.....	10
Cacalifolium , flowers rich blue.....	10	Hoveyi (Ianthina) , habit and general character of <i>S. Splendens</i> , but with dark blue flowers.....	10
M. Issanchon (new), flowers pure white, calyx white striped, very fine.....	10	Mrs. Stevens , flowers a deep crimson.....	10
Mrs. Mitchell , crimson-purple, very distinct....	15		
Rutilans (new), magenta flowers, fine.....	10		

NEW ABUTILONS.

	Each.		Each.
Abutilon, Incentlie (new), bright crimson purple, veined carmine.....	50	Abutilon, La Candeur (new), a very beautiful pure white flower.....	25
A. Besson (new), bright red, compact habit, free bloomer.....	25	Modeste (new), bright red, veined with crimson, fine.....	20
Chrysostephanum (new), (Couronne d'Or), compact habit, in the way of A. Darwinii, flowers sulphur-yellow, very fine.....	25	Ne Plus Ultra, rosy crimson, veined light.....	20
Chinois (new), beautiful orange salmon, large profuse bloomer.....	20	Purity (new), flowers of the purest white.....	25
Comtesse de Greffthe (new), a superb white flower.....	20	Royal Scarlet Flower (new), very bright.....	25
Edouard Layeillon (new), deep rich golden yellow, flushed with rose.....	25	Scarlet Gem (new), produces its brilliant red flowers when only a few inches high.....	50
Firefly, compact habit, flowers brilliant red.....	25	Seraph, pure white, a long tubular-shaped flower, very fine.....	20
Fire King, very bright carmine, fine.....	20	Sellowianum Marmoratum, leaves are very large and ornamental; their color is a golden yellow, richly tessellated with green.....	20
King of Roses (new), flowers rich deep rose, of great substance.....	25	Toison d'Or, color deep bright yellow, a very fine variety.....	20
Lustrous (new), freely produces well-shaped bright red flowers.....	50	Thompsoni plena, double flowers, orange-shaded and streaked with crimson.....	15

NEW EULALIAS.

Eulalia, Japonica Variegata, leaf long, variegated. The flower stems are from 3 to 4 feet high, very reed-like, and produce loose panicles of flowers. The panicles are hairy and erect until dried, when they become elegantly curled, closely resembling "Ich dien" feathers.....	25	Eulalia, Japonica Zebrina, the variegation in this lovely grass is across the leaf instead of longitudinally. It grows from four to five feet in height, is a most strikingly graceful plant. Its flower spikes are equally beautiful and valuable as E Japonica.....	25
---	----	---	----

PAMPAS GRASSES.—Gynerium Argenteum.

*Pampas Grass, Album Variegata, white variegated Pampas Grass. This beautiful grass has all the grace and elegance of G. Argenteum, and flowering quite as freely; add to this its graceful foliage striped with silvery white.....	1 00	*Pampas Grass, Elegans, a very vigorous and beautiful variety.....	1 00
Argenteum, the well-known Pampas Grass, with long graceful foliage, which gives off in autumn its beautiful silvery plumes.....	25	*Elegans Niveo-vittatis, another very elegant Pampas Grass, handsomely variegated.....	1 00
*Stenackeri fol Variegata.....	1 00	*Aurea Variegata, gold variegated Pampas Grass. Another beautiful variety, similar in its graceful habit to the last, but in this the foliage is striped with a deep yellow; a charming variety.....	50 cts. to 1 00
*Wesselingi Variegatum, a very beautiful variegated grass.....	1 00	*Monstrosum, very robust in growth.....	1 00
		*Roi des Roses, foliage striped with rose.....	1 00

NEW POINSETTIAS.

Poinsettia, Alba, flowers white.....	50	Poinsettia, Pulcherrima Major, an improvement on the old species, both in the size of the individual bracts, and also in the far larger heads, which are of a bright scarlet, tinted with violet cerise.....	50
Pulcherrima Plenissima (new Double Poinsettia), this magnificent plant is remarkable for its floral bracts, the size of the heads in which they are produced, and their marvellous brilliancy of color. The whole inflorescence is full and rosette-like, and of a most vivid and brilliant scarlet color.....	50	Rosea-Carminata, in this fine variety the heads of bracts are larger, smooth, and of a brilliant rosy carmine.....	50

DIEFFENBACHIAS.

Dieffenbachia, Baraquiniana, a fine vigorous plant with white stems, leaves green, spotted and blotched with pure white.....	50	Dieffenbachia, Brasiliensis, a handsome variety; the ground color of the leaf is deep green, and the whole surface is mottled with small blotches of greenish yellow and white. A beautiful plant.....	50
Bausei, it is a stocky-growing broad-leaved variety, with yellowish green leaves, which are irregularly edged and blotched with dark green, and also spotted with white, the marking being particularly effective.....	50	Eburnea, distinct and very beautifully marked foliage.....	50
Bowmanii, very large bright green leaves, blotched and marked with golden green; a grand specimen plant.....	50	Nobilis, the leaves are of a deep rich green, marked over the central portion to within about an inch of the margin with largish, angular, irregular and variously confluent white spots, which contrast with the color of the margin and intervening portions.....	50
Weirii, it is of dwarf habit, the foliage of a bright green color, thickly blotched and spotted with pale yellow. This is one of the finest of the Dieffenbachias.....	50	Picta, a very beautiful foliage plant, leaves a deep green, mottled with white; beautiful.....	50

FICUS.—India Rubber Tree.

Ficus, Australis, foliage, a pretty ornamental plant.....	30	Ficus, Lucida, leaves bright green, shining.....	30
Elastica, India Rubber Plant. Fine large shining foliage; a fine decorative plant.....	50	Parcelii, a splendid decorative plant with beautifully variegated foliage. The leaves, which are of large size, thin texture and coarsely serrated on the margins, are of a bright green color, profusely but irregularly blotched with creamy-white and dark green.....	40
Macropcarpa, a free growing shrub, with smooth terete stems and coriaceous glossy ovate-oblong entire leaves, five to six inches long and three inches broad.....	50	Variegata, see Novelities.	

JUNCUS ZEBRINUS.—(Scirpus Tabernæmontani).

This remarkable Japanese plant has a most peculiar appearance, the idea suggested by a group of it being that of a cluster of porcupine quills. The plant is a true Rush, but the leaves, instead of being green, are transversely banded with white and green. 25 cents.

MARANTAS.

	Each.		Each.
Maranta, Amabilis	30	Maranta, Micans	30
Argyrea	30	Porteanna , this is a vigorous-growing species, with fine large foliage feathered with white....	30
Baraquirii	30	Princeps , this plant attains a height of from 3 to 4 feet, the blade of each leaf measuring upwards of a foot in length. Centre dark metallic margined with light green.....	30 cts. to 50
Bicolor , deep green marked with dark brown....	30	Pulchella	30
Goveniana	30	Regalis , very beautiful, with fine foliage distinctly and finely marked.	50
Illustris , a beautiful marked species, with leaves of a rich lustrous green, being a rival to <i>M. Lindenii</i> and <i>M. Veitchii</i> , assuming the habit of <i>M. Rosea picta</i> whilst young. Towards maturity the tracery changes to a broader white one within the margin.....	30 cts. to 50	Rosea picta	50
Legrelliana	50	Sanguinea	30
Lietzei	30 cts. to 50	Tubispatha , an elegant and very attractive species of erect habit of growth. Leaves some 9 or 10 inches long, light green, ornamented on each side the midrib with oblong blotch s of cinnamon-brown.....	30 cts to 50
Lindenii , foliage very dark, with a golden feather along its centre. A fine species.....	50	Undulata	30
Lubersi (new), a very handsome species, foliage reticulated with yellow. Makes a handsome specimen plant.....	50	Van Den Hecke , leaves dark, satin-like, embellished by a large central line, surrounded by a silver disc.....	30
Massangeana , a very distinct dwarf species. The variegation consists of three distinct colors. The midrib veins and middle portions of the leaf are silvery white, faintly tinged with bluish-green, then a broad band of blackish hue, the whole being surrounded by a belt of bright green, margined with a thin line of a lighter shade.....	30 cts. to 50	Veitchii , the leaves of this grand plant are upwards of 12 inches in length; the under surface of a rich purplish-white color, the upper of deep, shining green, blotched with conspicuous patches along each side of a yellowish-green, almost verging on gray. The contrast is very marked, and the whole plant very beautiful.....	50 cts. to 1 00
Makoyana , a very ornamental dwarf growing species. Leaf stalks slender reddish-purple, blade of the leaf ovate, ground color olive-green, beautifully and regularly blotched with creamy-yellow, of a transparent character. On each side of the midrib are oblong dark green blotches, whilst the under side is rosy-red.....	30 cts. to 50	Virginalis , fine broad foliage, midrib has a broad band of white; a very fine plant.....	50
		Wagnerii	30
		Warscewiczii	30
		Zebrina	30

PANDANUS.--Screw Pine.**PANDANUS.**

Pandanus, Javanica Variegata , this variegated Screw Pine is well known as one of the finest decorative plants; leaves green, with broad stripes of pure white, gracefully curved; very beautiful.....	50 cts. to 1 00
Graminiformis , this has narrow, light green foliage; a pretty, graceful species.....	30 cts. to 50
Utilis , Screw Pine; very fine decorative plant, with recurved graceful foliage.....	25 cts. to 1 00
Veitchii , this splendidly variegated Screw Pine is one of the most attractive plants. The leaves, which are of a light green color, beautifully marked with broad stripes and bands of pure white, are most gracefully curved, which elegant habit of growth renders the plant extremely effective.....	50 cts. to 1 00

PHORMIUM.--New Zealand Flax.

*Phormium, Atropurpureum , a very desirable species; habit the same as <i>P. Tenax</i> ; leaves reddish-purple. This makes a distinct decorative plant for the conservatory, and a fine subject for the sub-tropical garden; a distinct and beautiful plant		*Phormium, Cooki Variegatum , an elegant, somewhat dwarf growing plant; leaves green, beautifully striped with golden-yellow. Native of New Zealand.....	\$1 00 to 2 00
*Colensoi Variegatum , this beautiful plant has fine, broad, erect, pointed, dark green leaves, elegantly banded at the margin with one or sometimes with two conspicuous stripes of creamy-white. It has the same mode of growth as <i>P. Tenax</i> , but is altogether distinct, while its more erect habit gives it quite a distinct appearance.....	\$1 00 to 2 00	*Purpurea Fol Nigra Marginata , a distinct form of New Zealand Flax, with purplish-green leaves, margined with black.....	\$1 00 to 2 00
		*Veitchii Variegatum , this is a finely variegated form of the well-known New Zealand Flax. The leaves are of the same size as the species, with conspicuous broad stripes of creamy white running out their whole length, and contrasting well with the light shining green ground color. It is a truly noble plant.....	\$1 00 to 2 00

YUCCAS.

Each.	Each.
<i>Yucca, Aloëfolia Variegata</i> , we received a special premium for a fine specimen of this plant from the Maryland Horticultural Society. Leaves green, broadly striped and banded with yellow; a beautiful variegated plant.....50 cts. to 1 00	<i>*Yucca, Quadricolor</i> , the foliage of this is long, recurved and beautifully variegated; a very fine plant..... 1 00

DIPLADENIA, (Echites.)

<i>*Dipladenia, Amœna</i> , flowers of a soft pink color, suffused with rose, somewhat resembling <i>D. Splendens</i> , but in every respect a great improvement on that variety, being of superior form, the lobes being stiff and round, instead of reflex and pointed..... 75	<i>*Dipladenia, Brearleyana</i> , this splendid variety of <i>Dipladenia</i> is one of the best exhibition plants extant. Its superbly colored flowers, which are of the largest size, opening pink and changing to the richest crimson color. They have this remarkable peculiarity, that the color increases in intensity with the age of the flowers..... 1 50
<i>*Amabilis</i> , a very beautiful species, bright rosy-carmine, a good grower and free bloomer..... 1 00	<i>*Hybrida</i> , a very floriferous variety; flowers resembling <i>D. Insignis</i> , both in color and form, but are produced in much greater profusion... 1 00
<i>*Boliviensis</i> , a very free flowering white <i>Dipladenia</i> . In habit it is very compact, producing an abundance of flowers in a much smaller state than almost any other species. The foliage is medium in size, and of a light glossy green color. The flowers pure white, with a distinct yellow centre..... 1 00	<i>*Profusa</i> , this is a grand species. The flowers are 5 inches in diameter, rich carmine, of fine substance, produced abundantly in bunches from the axils of the leaves. This species has the best constitution of any <i>Dipladenia</i> we have grown, keeping its foliage nearly all the season. There is no plant more beautiful than the <i>Dipladenia</i> , lasting as it does four to five months in flower..... 1 50
<i>*Insignis</i> , this is a fine addition amongst stove climbers and exhibition plants; flowers from 4 to 4½ inches in diameter, of great substance; tube white, the remainder of the flower being rich, deep, rosy-carmine..... 1 50	

LAPAGERIAS.

<i>*Lapageria, Rosea</i> , an extremely beautiful climber, with large rosy crimson bell-shaped flowers..... 2 50	<i>*Lapageria</i> , a beautiful variety of the last, with numerous large bell-shaped flowers of the purest white..... 5 00
--	--

JASMINUM, SAMBAC, (Arabian Jasmine).

<i>Jasminum, Duchesse d'Orleans</i> , flowers double, white, like miniature white roses, deliciously fragrant, a very valuable plant..... 25	<i>Jasminum, Trifoliata</i> , another fine variety, flowers white, like miniature roses, deliciously fragrant..... 30
<i>Grand Duke</i> , flowers double, white, like miniature white roses, deliciously fragrant, similar to the above, but distinct..... 25	<i>Hirsutum</i> (single), a very free flowering winter blooming species..... 25 cts. to 50
<i>Grand Duchesse de Tuscany</i> , flowers double, white, like miniature roses deliciously fragrant, in the style of the two preceding; very fine.... 25	No plants can be more beautiful or fragrant than these; blooming freely through the summer. All who grow choice plants should possess them.

IXORAS.

<i>Ixora, Amabilis</i> , of vigorous and compact habit, deep orange salmon, well formed flowers, borne in large trusses, which are produced in great profusion..... 50	<i>*Ixora, Prince of Orange</i> , this variety is distinct in color from any other, and is a valuable addition to this ornamental genus. It is of free, compact habit, flowers rich orange red, tinged with violet toward the centre, and produced in large and dense terminal corymbs..... 50
<i>*Colei</i> , a cross between <i>I. Coccinea</i> and <i>I. Alba</i> , having the strong, free robust habit and large foliage of the former, and the pure white flowers of the latter..... 1 00	<i>*Fraseri</i> , a most effective and beautiful variety, of free and vigorous growth, with rich dark green foliage, and numerous large, terminal, globular flower heads, with blossoms of a brilliant flamed salmon color, upon carmine scarlet flower tubes, and rich under pedicels of flower stalks..... 50
<i>Coccinea, Superba</i> , a beautiful variety, with very large heads of brilliant orange scarlet flowers, produced freely..... 50	<i>*Williamsii</i> , it is a free growing plant and an abundant bloomer, producing immense trusses of large flowers, of a very distinct and pleasing shade of reddish salmon. It is one of the very best varieties in cultivation..... 50
<i>Crocata</i> , deep orange, free grower, and profuse bloomer..... 50	
<i>Regina</i> , it is of compact habit, and the flowers are of a deep shade of color; the trusses are of a somewhat similar shape to those of <i>I. Coccinea</i> , but the plant is much more compact in growth than that variety..... 50	

CLERODENDRONS.

<i>Clerodendron, Balfouri</i> , a beautiful climbing species, which blooms profusely on the young wood, flowers scarlet and white..... 25	<i>Clerodendron, Speciosum</i> , this beautiful plant forms a fine intermediate variety between <i>C. Splendens</i> and <i>C. Balfouri</i> , rich rose or violet tinted crimson..... 25
<i>Thompsonii</i> , a very beautiful climbing stove plant, with crimson flowers, free, vigorous grower and profuse bloomer..... 25	<i>Coronaria</i> , a very desirable plant, flowers double, white, very fragrant, fine for bedding out..... 25

CALLIPHURIA SUBEDENTATA.

This is a very beautiful free flowering plant; flowers pure white, fragrant, similar to *E. Amazonica*. 25 to 50 cents.

EUCHARIS.—Amazonian Lily.

	Each.		Each.
Eucharis, Amazonica , large pure white fragrant flowers, full four inches in diameter, and are produced in abundance on strong plants. 25 cts. to	50	*Eucharis, Sanderii , a distinct and beautiful new species. Its snow-white flowers are produced in umbels, and the corona, which is marked with six yellow stripes, is so shallow that it merely projects as a rim beyond the mouth of the tube.....	50 cts. to 1 00
*Candida , a very beautiful species, flowers pure white	50		
Grandiflora , large, pure white very fragrant, 25 to	50		

IMATOPHYLLUM MINIATUM.

A very excellent evergreen, warm greenhouse or cool stove plant intermediate between *Clivia* and *Vallotta* or *Amayllis*, in style of growth, with dark green leaves and large corymbs of erect, large, clear rich salmon or light flame colored cup-like blossoms. 50 cents to 1.00.

LASIANDRA MACRANTHA FLORIBUNDA.

A magnificent plant of good habit and a most profuse bloomer; the flowers are rich violet blue, between five and six inches in diameter and produced nearly all the year through. It requires the same treatment as *Pleroma Elegans*. 30 cents.

RUELLIA MACRANTHA.

A Brazilian plant. Flowers freely of a fine violet-carmine, a pleasing color. This plant is of free growth in a warm house, flowering profusely and showy. One of the very finest winter blooming plants of recent introduction. 25 cents.

STEPHANOTHUS FLORIBUNDA.

This plant is not new, but as a valuable stove climber it is unequalled. The flowers are pure white, of a waxy texture, very persistent. Some large plants in one of my greenhouses were covered with bloom the whole of the past spring and summer. 25 to 50 cents.

TABERNÆMONTANAS.

Tabernæmontana, Camassa , a very desirable shrub, with racemes of double white flowers of Gardenia-like outline and fragrance, which are produced on the point of every shoot. The usual temperature of a hot-house with less humidity, will produce blooms more freely and longer in succession. The petals of the flowers are lighter and more elegantly arranged than the Gardenia, and not quite so large; small plants in three-inch pots will produce flowers		freely. (Growers of flowers for market should cultivate a house of this plant alone)...30 cts. to	50
		Tabernæmontana, Camelliflora Pleno (Glory of the Day) , this plant is not new, but it is not cultivated to the extent it deserves; it succeeds well belated out during summer, giving its lovely double fragrant flowers of the purest white in great profusion; excellent for bouquets, &c	25

PARIS DAISY OR MARGUERITE.--(Chrysanthemum Frutescens.)

Paris Daisy, Alice Crousse , a very beautiful and useful variety in the way of Halleri Maxima, and producing flowers more freely than even that beautiful variety.....	20	Paris Daisy, Etoile D'Or , invaluable alike for pots and for summer bedding, it is possessed of a free yet neat habit, and produces in abundance beautiful soft yellow flowers, these from their neatness of construction and delicacy of color are most chaste in a cut state.....	20
Frutescens , pure white, very free.....	20		
Halleri Major , flowers pure white, free blooming, very useful for cutting.....	25		

ALOCACIAS.

Alocacia, Alba Violacea , stems blue, striped white, large foliage.....	25	Alocacia, Bataviensis , foliage and stem dark purple.....	25
Jenningsii , a delicate green, heavy blotches of black.....	25	Javinica , beautiful green.....	25
		This class of Alocacias bed out finely.	

NEW TUBEROUS-ROOTED BEGONIAS.--Single Flowered.

The following beautiful varieties will be found admirably adapted for bedding out as they produce in the utmost profusion magnificent flowers of very large size, and great variety in color. The tubers rest during the winter months, similar to *Gladulus*, and can easily be re-started in growth in the spring. Their profuse flowering quality, and the charming variety of color of their blossoms, render them extremely showy and effective.

Begonia, Admiration , orange-scarlet, large and fine.....	75	Begonia, Chambersii , flowers free, large rosy-salmon inside.....	30
Agnes Saul , very large flower, pure white, superior to White Lady.....	50	Charles Baltet (Lem.) , large flowers of a rich vermilion, a beautiful variety.....	50
Aspasie , beautiful large, well-formed flowers of a rich glowing rose color.....	30	Chelsoni , flowers large, drooping, bright orange, shaded with red.....	25
Boliviensis , the flowers are in great abundance, bright shining red in color.....	25	Chicago , the flowers are of a glossy salmon-red color.....	30
Brilliant , flowers orange-crimson, very rich, superb.....	50	Crepuscula (Lem.) , flowers large and round, color salmon-buff, a vigorous plant and free bloomer.....	25
Carminata , flowers large rosy-salmon.....	30		

	Each.		Each.
Begonia, Countess of Kingston , intense purplish-crimson, immense flowers.....	1 00	Begonia, Message de Louvrex (Van Houtte) , splendid orange-red.....	50
Davisii , it is a native of the Andes of Peru. It is of the dwarfiest habit, the leaves and flowers all springing from the root stock. The scapes which rise erect above an elegant bluish-green foliage are bright red; each scape bears three dazzling scarlet flowers.....	50	Mont Blanc (new) , a vigorous grower and free bloomer, large white flowers.....	50
Diamant (Lem.) , flowers very large, of a vivid rose color, habit dwarf and compact, beautiful.	30	Oriflamme (Lem.) , very large flowers, of a carmine-vermilion, brilliant and showy; vigorous, robust grower with large foliage.....	50
Eldorado (Lem.) , a free flowering plant, flowers bright yellow.....	50	Pierceli , the foliage is very pretty colored, flowers yellow, distinct and fine.....	25
Emperor , orange-scarlet flowers, very brilliant, a grand flower.....	50	Queen of Whites (new) , fine free grower and good habit; flowers large, pure white, the finest white.....	50
Excelsior , a large flower, cinnabar-red, very fine.....	50	Rosina M. Saul , flower very large of a bright rich rose color; a charming variety.....	50
Fannie E. Saul , the flowers are large, of a brilliant amaranth, of free growth and profuse bloomer.....	25	Rubens (Lem.) , color coral-rose, very large, a magnificent flower.....	50
Frebelii , a splendid new species from Ecuador, very distinct and attractive, producing well above the foliage erect bunches of large brilliant scarlet flowers; the foliage is of a bright green color, furnished on the under side with a thick covering of white hairs.....	25 cts.	Sedeni , flowers are of the richest magenta color and of large size.....	25
John Laing , a brilliant carmine, large and fine, very showy.....	50	Solfatara (new) , vigorous and fine habit, pure yellow flowers.....	50
John Saul , a grand flower, large, color dark scarlet-crimson.....	50	Teresa Saul (Saul) , very large, color rose-magenta, very fine habit.....	30
Jules Tanin , beautiful, carmine-rose, very large, Miss M. C. Saul (Saul) , very large, deep clear rose, beautiful.....	50	Sutherlandii , flowers yellow, distinct and fine, Trocadero , a very vigorous variety, flowers enormous, color orange-vermilion.....	30
Miss Briscoe , rosy orange with white centre.....	75	Trophee (Lem.) , a free flowering variety of neat habit, flowers cinnabar-red.....	50
M. Marcotte (Lem.) , flowers large, of a beautiful tender rose color, very large and fine, a magnificent plant, superior to B. Rosæflora.....	50	Velours (Lem.) , flowers of a rich vermilion, large and freely produced.....	50
Model , a free flowering variety, with finely-formed flowers of a beautiful carmine-rose.....	50	Vicomtesse Doneraile , very large, rich vermilion, extra fine.....	1 00
Mrs. John Saul (Saul) , color yellow, in the way of Pierceli, but larger and finer in every way.....	50	Wilh. Liebrecht (Lem.) , flowers of immense size, color crimson vermilion and orange, very brilliant, fine habit and free bloomer.....	50
Onyx (Van H.) , flowers very large, vermilion, shaded with very lively orange, reminding of the color of B. Veitchii.....	50	Wilh. Pfitzer (Lem.) , flowers rich carmine-vermilion, centre solferino, very large in the way of B. Veitchii, but superior; magnificent, White Lady , flowers pure white, profuse bloomer.....	50
		Washingtoniana , orange-vermilion, very large and fine.....	30

Extra selected seedlings 25 cents each, \$2.00 per dozen.
Seedlings mixed 20 cts. each, \$1.25 per dozen.

NEW TUBEROUS ROOTED BEGONIAS.—Double Flowered.

* Begonia, Argus (Lem.) , fine double flowers of a rich vermilion, good habit and free bloomer.....	1 00	* Begonia, Lukme , large and double sulphur yellow.....	1 50
* Andre Chenier , bright orange, large imbricated flower, dwarf compact habit.....	1 50	* Lemoinei (Lem.) , the flowers of this beautiful plant are like a double Anemone, of an orange vermilion, very beautiful.....	1 50
* Bastien-Lepage , very brilliant salmon, large and showy.....	1 50	* M. Keteleer , a beautiful plant, very double, finely imbricated.....	2 00
* Marie Bouchet , enormous double flowers of a scarlet-crimson, extra fine.....	1 50	* Pæoniiflora , enormous flowers of a bright rose color, extra fine.....	1 50
* Davisi flo. pleno , flowers dazzling scarlet, very double. Habit dwarf and compact, a very beautiful variety.....	2 00	* Phosphorescent (Lem.) , flowers very large and double, brilliant deep vermilion, an exceedingly beautiful variety.....	1 50
* Davisi lutea pleno , similar to the preceding, with orange yellow flowers.....	2 00	* President Burelle (Lem.) , flowers large and double, of a crimson scarlet, of a fine habit and free bloomer, a grand plant.....	2 00
* Eclat , very rich crimson, large and double.....	1 00	* Volcan , very large and double, rich salmon, imbricated.....	1 50
* Gilbert , deep solferino, large and fine.....	1 50	Vicomtesse Doneraile , deep bright rose, very large and double, vigorous.....	1 50
* Glorie de Nancy (Lem.) , a magnificent variety, with large, very double, beautifully-colored carmine flowers, very floriferous.....	1 50		
* Marie Lemoine , very large and double, color rich crimson.....	1 50		

NEW HYBRID TUBEROUS BEGONIAS.

Begonia, Bruanti , in the way of B. Schmidtii, flowers white, very pretty.....	50	Begonia, Erecta Superba , this splendid variety, which produces very large, brilliant scarlet flowers during the whole summer, is very showy and ornamental.....	50
Massiliensis , a hybrid between Semperflorens and Bruanti, dwarf, compact habit, flowers pure white.....	50	* Margarita , a very fine and distinct hybrid, between Metallica and Echinosepala. Free bloomer, white.....	1 00
Martiana Gracilis , a fine New Mexican species. Flowers brilliant rose, good habit and free bloomer, a great acquisition.....	50	Teutschni , new and fine.....	50

NEW SHRUBBY BEGONIAS.

Begonia, Caracasana , flowers large, silvery rose, upright, vigorous grower and free bloomer.....	25	Begonia, Uthinkii , flowers crimson, free bloomer, compact habit.....	25
Schmidtii , flowers white during fall and winter,	25		

NERIUMS.—Oleanders.

The following collection has been selected from the best European growers. I would remark what they call double, in some cases are semi-double, and whilst young are disposed to give single flowers.

	Each.		Each.
<i>Nerium, Album Maximum</i> , a very large and pure white semi-double.....	25	* <i>Nerium, Lilian Henderson</i> , this beautiful Olean-der is the most prolific bloomer and finest of the white-flowered varieties. The flowers are double, full petalled, rose-like in form, with a delicious perfume; small plants blooming freely will cause this plant to be grown largely for decorative purposes, as well as being unique for the bouquet.....	50
<i>Atropurpurea plenum</i> , double rich color.....	50	<i>Luteum Novum</i> (new), fine new single, pale sulphur.....	40
<i>Cardinale</i> (Double), rich double vermillion, lighter in centre of petals, one of the finest dark Neriums in cultivation.....	50	<i>Madoni Grandiflorum</i> (new), beautiful semi-double, pure white-flowered, splendid, free blooming, superb.....	30
* <i>Flavum duplex</i> (new), semi-double, pale sulphur, distinct.....	40	<i>Mad. Chas. Baltet</i> , cherry carmine, large and very double, a fine variety.....	30
<i>Geant de Batailles</i> (s.), light blush centre, petals edged with crimson.....	40	* <i>Purpurea</i> (new), purple, double corolla.....	1 00
<i>Gloriosum</i> (new), flowers very large and double, of a brilliant cherry crimson, extra fine.....	40	<i>Souvenir de Claude Sahut</i> , rich carmine, large and very double, very beautiful.....	30
<i>Grandiflorum plenum</i> , cherry crimson, large and crimson.....	25		
<i>Jean d'Arc</i> , pure white, single, occasionally semi-double, a most profuse bloomer, a very valuable variety. Can be highly recommended,	30		
* <i>Luteum plenum</i> (new), pale sulphur, double... 1 50	1 50		

SAUL'S DOUBLE CHINESE PRIMROSES.—*Primula Sinensis Pleno*.

* <i>Primrose, Mary C. Saul</i> (<i>Saul</i>), a seedling raised in our establishment. The flowers are as large as a carnation, very double, of the purest white, fringed, habit strong and vigorous; the finest white <i>Primula</i> ever raised.....	1 50	are occasionally flaked with vermillion, a magnificent flower.....	1 50
* <i>Grandiflora rubra</i> , very large, double red.....	1 00	* <i>Primrose, Rosina M. Saul</i> (<i>Saul</i>), this beautiful double flower is the style of the two last. The strain is of great vigor. The flowers, which are fully as large, are of a rosy crimson, fringed... 2 00	2 00
<i>Mrs. John Saul</i> (<i>Saul</i>), this superb variety was raised in our establishment. The flowers are large, pure white, petals overlapping, beautifully serrated, of fine form, robust and compact habit, profuse bloomer. Can be safely recommended as the best double white <i>Primula</i> out.....	50	* <i>Winifred Lawley</i> (<i>Saul</i>), this plant is of the same vigorous strain as the others, flowers fully as large and very double, the color is distinct and novel, a beautiful pink shaded with lavender, fringed.....	2 00
* <i>Fannie E. Saul</i> (<i>Saul</i>), another of our seedlings, a counterpart in every particular of the last, except that the beautiful white blooms		We recommend these beautiful <i>Primulas</i> to our patrons, believing they are unequalled by any others in cultivation. Their merits are well-known to the florists of Baltimore and Washington.	

BOUVARDIAS.

For autumn and winter blooming plants the *Bouvardias* are well known to every florist. They are of the easiest culture, giving their rich colored flowers in great profusion.

<i>Bouvardia, Alfred Neuner</i> , this is equal, if not superior, in profuse blooming quality to the valuable single white variety, <i>Davidsonii</i> , of which this double white one is a sport.....	25	<i>Bouvardia, Candidissima</i> , pure white.....	25
<i>Alba Odorata</i> , pure white centre of great substance, and very richly fragrant.....	25	<i>Humboldtii Corymbiflora</i> , the blossom is the largest hitherto known in the group; the flower tube three inches in length, snow white and exquisitely fragrant.....	25
<i>Brunettii</i> , light creamy blush, a new color, very distinct.....	25	<i>Jasminoides</i> , a beautiful species in the way of <i>B. Longiflora</i> , with larger terminal and auxiliary racemes of fragrant snow white flowers...	25
<i>Davidsonii</i> or <i>Vreelandii</i> , the finest of all white <i>Bouvardias</i> , and of the free growth of its parent <i>Hogarth</i>	25	<i>Leiantha</i> , dazzling scarlet.....	25
<i>Elegans</i> , color a scarlet carmine, flowers and trusses of immense size.....	25	<i>Laura</i> , bright pink.....	25
<i>Flavescens</i> , (new), flowers like <i>Jasminiflora</i> , but of a pale sulphur.....	25	<i>President Garfield</i> , double pink, quite as free in profusion of flowers as the Double White...	25
<i>Floribunda</i> , flowers orange scarlet, very distinct and fine.....	25	<i>Rosa Multiflora</i> , of free growth and profuse flowering, color bright rose.....	25
<i>Hogarth</i> , splendid raceme, rich scarlet, vigorous grower, fine habit.....	25	<i>Sanguinea</i> (new), color crimson vermillion; a very fine new variety.....	25
<i>Longiflora</i> , snow white, long tube, beautiful ...	25	<i>Thomas Meehan</i> , double scarlet.....	25
		<i>Vulcan</i> , a rich shade of crimson scarlet, with the large trusses and free habit of <i>Elegans</i>	25

DRACÆNAS.—Dragon Tree.

Our rich collection of *Dracænas* has been awarded the first premium by the Maryland Horticultural Society for several years, and first premium at the "Cincinnati Exposition." For decorative purposes these plants are now extensively grown, their broad, dark, tropical foliage and graceful habit render them very appropriate.

<i>Dracæna, Amabilis</i> , the ground color of the leaf is bright glossy green, becoming beautifully marked and suffused with pink and creamy white.....	50 cts. to 1 00	<i>Dracæna, Baptistii</i> , the leaves are green, 1 to 1½ feet long, 4 inches broad, margined and irregularly and obliquely striped with narrowish creamy-white flakes, passing through pale pink to deep rose.....	50 cts. to 1 00
<i>Braziliensis</i> , a robust growing species, with large, broad green foliage.....	50	<i>Elegans Rubra</i>	50

	Each.		Each.
Dracæna, Ensifolia (Dianella Ensifolia), foliage green, fine window plant.....	50	Dracæna, Nigrescens , foliage very dark blackish-brown, a very distinct variety.....	50
Elegantissima , the leaves are of a deep bronze, with a metallic lustre, and very distinctly margined with bright crimson, in the young leaves crimson of a lighter shade entirely predominates.....	1 00	Porphyrophylla , a noble stove shrub of erect habit, with bold, broadly oblong leaves of a fine deep bronzy green color.....	50
Fraseri , leaves margined with bright rosy lake. The principal part of the leaf is of a blackish purple with a glaucous bloom; a marginal stripe of deep magenta runs down into the edge of the petiole.....	1 00	Princess Margaret , a very fine variety. The leaves when first expanded are creamy white, slightly shaded with green, with a few oblique stripes of deep green, with a pale crimson midrib.....	1 00
Frederici , it has a compact, yet graceful habit of vigorous growth. Its leaves assume a rich, rosy crimson color, and is a grand decorative plant; one of the most valuable, as it colors beautifully in a small state.....	1 00	Robinsoniana , light olive green, very much striped with bands of bronzy crimson and greenish white.....	1 00
Ferreæ , foliage broad dark crimson.....	50	Rosea-picta , a plant of robust habit and bold aspect. The leaves are beautifully colored with a delicate rose tint, which deepens by age to a bright carmine.....	1 00
Guilfoylei , the ground color is bright green; fully one-half the leaf, however, is striped with white and bright rosy red, the latter color mostly forming the border in addition.....	1 00	Scottiæ , a distinct and beautiful variety; the leaves spreading lanceolate, about 3 inches wide, of a deep green, with crimson edges; the young leaves freely variegated, with pink and creamy white.....	1 00
Haageana , a very distinct variety, with green foliage.....	50	Shepherdii , this takes on its distinctive coloring gradually on the older leaves, the young ones being green, and showing paler green stripes on those parts which take on at a later period the peculiar bronzy orange hue.....	50
Hybrida , the older leaves are of a deep green color, margined with bright rose; as the plant attains age, the latter formed leaves become entirely suffused with deep rose and creamy white.....	1 00	Spectabilis , foliage long, green, very graceful.....	50
*Kneckei , deep green foliage beautifully recurved.....		Splendens , the color is a deep bronzy green, breaking out in the young growth into bright rosy carmine. The brighter coloring appears sometimes in stripes, and sometimes occupies the whole surface.....	1 00
Laingi (new), the leaves are from 8 to 10 inches long, and from 2 to 2½ inches broad. The latest formed are pale green with broad bands and margins of creamy white faintly tinged with rose.....	1 00	*Superba , this is the most slender and graceful growing variety ever offered. The leaves are pendulous, arching, from 12 to 18 inches long, from 1 to 1½ inches broad, linear lanceolate, dark bronzy green, margined and striped with bright crimson.....	1 00
Macarthurii , of very compact growth and bright colored foliage. They are very elegant both in form and coloring, the latter being especially brilliant and attractive.....	1 00	Terminalis , foliage bright crimson.....	50
Mooreana , the base of the leaf-stalk and the midrib are of a bright reddish crimson color, which in the leaf itself, changes to a glossy brown.....	1 00	Alba , this is <i>D. Terminalis</i> , but with white variegation. The ground color bright green, with bold pure white variegation, the upper leaves being white, while leaf-stalks are also edged with white, colors very early.....	1 00
Magnifica , leaves nearly two feet in length and eight inches in breadth when the plant is well grown. The foot-stalks are reddish purple, and the leaves are rich bronzy brown suffused with pink.....	1 00	Stricta , a variety with brilliant foliage.....	50
Metallica , the leaves, together with the sheathing leaf-stalks, are of a uniform rich coppery purplish hue when young, becoming a dark purplish bronze when mature.....	1 00	Wisemanii , leaves of a bronzy hue, red at the margins, and breaking-out into white in the younger growth.....	1 00
Nigro-Rubra , an exceedingly beautiful plant; leaves upwards of eighteen inches in length, ground color rich brown, the centre crimson, shaded with rose.....	1 00	Youngii , young leaves light green, tinged with rose; streaked with dark red, changing with age to a bright copper-color.....	1 00

Specimens and half specimens of all can be supplied during summer and autumn, suitable for exhibiting at Fairs, Flower Shows, &c., at moderate prices.

CORDYLINES.

Cordylina, Australis , a very long, narrow, graceful foliage.....	25	Cordylina, Veitchii Rubra , dark foliage.....	25
Indivisa , long, narrow and graceful foliage.....	25	Australian plants of much grace and beauty, admirable for vases, single specimens on lawns, &c.	
Lineata	25		

CROTONS.--(Codiaeum.)

These ornamental plants are natives of the South Sea Islands; they are among the most beautiful of variegated plants, the leaves being blotched with yellow and red in various ways, which renders them most attractive and valuable for decorative purposes. They are of the easiest culture, succeeding in any warm greenhouse.

Our rich collection of Crotons has been awarded the leading prizes by the Maryland Horticultural Society for some years, and first premium at the Cincinnati Exposition.

Croton, Aurea-Maculatus , a small leaved variety of very neat and compact habit. The leaves are not more than 3 inches long and 1½ inches broad, deep but bright green, profusely spotted with golden-yellow.....	50	Croton, Andreana , a variety of neat habit and free growth. The foliage colors in the most exquisite manner. One of the most beautiful of Crotons.....	50
Bismarckii , the color is a deep green, with a broad band of golden-yellow along the costa, and yellow markings, in addition to which a few slight yellow blotches are scattered over the surface.....	50	Bicornutum , this is a curious and handsome variety; leaves irregular in shape, dark green, blotched and spotted with yellow, and having a horn-like extension of the midrib, which has given rise to its name.....	50

	Each.		Each.
Croton, Chrysophyllum , at the upper ends of the shoots they appear to be almost entirely golden. The upper leaves are shorter than the lower, somewhat wavy-edged and occasionally about once twisted; the petioles are red.....	25 cts. to 50	Croton, Nobilis , a beautiful variety with long pendulous leaves, richly colored with many tints. The colors are crimson, yellow, and green in many shades, the crimson being predominant in the stems, footstalks of the leaves and midribs, where it is bordered by bands of deep golden-yellow.....	25 cts. to 50
Disraeli , in the newer leaves the midrib and margin of a light yellow. As the foliage becomes older the yellow subsides to a bright orange-yellow. In the mature leaves the margin is a bright scarlet.....	25 cts. to 50	Picta , foliage dark green, spotted with red and yellow.....	25 cts. to 50
Interruptum , very long leaves, nearly an inch broad, midrib bright scarlet, shading to a golden-yellow. An exceedingly graceful plant.....	25 cts. to 50	Tortilis , a remarkably fine variety with twisted foliage, very distinct. The midrib of each leaf grows in a spiral from the base to the point. The ground color is of a deep olive-green, the midribs of the mature leaves bright crimson, bordered on each side with a line of deep yellow.....	30 cts. to 50
Irregulare , leaves broadest at the base, about 9 inches long, scarcely two leaves resembling each other; ground color dark green, midrib orange-yellow, with the upper surface of the leaf irregularly spotted and blotched with yellow.....	25 cts. to 50	Undulatum , the edges of the leaves beautifully undulated and wavy, and the variegation consisting of numerous markings and blotches, which in the matured leaves are of the brightest crimson, and in the young leaves, at first yellow.....	25 cts. to 50
Johannis , the leaves are from 20 to 24 inches long, narrow and pendulous, ground color bright shining green, the margins and midrib bright orange-yellow, a beautiful variety.....	50	Variegatum , leaves dark green, blotched and spotted with golden-yellow.....	25 cts. to 50
Lord Cairns , this has trilobate leaves. The color of the foliage is a bright green, the midribs of the leaves a light yellow, blotched and spotted with the same color, the spots and blotches being irregularly scattered over the surface.....	25 cts. to 50	Rubrum , leaves dark green, striped and spotted with red and golden-yellow.....	25 cts. to 50
Majesticum , a truly grand variety, leaves from 12 to 18 inches long, when young the leaves are deep green, ribbed with golden-yellow, the green changing with age into a deep olive and the yellow becomes crimson.....	25 cts. to 50	Veitchii , a splendid variety. The leaves attain a length of 12 to 14 inches, and 2½ inches in breadth, and are traversed by broad bands of creamy-yellow, which change with age into rose and carmine-purple.....	25 cts. to 50
Mooreanus , the color and markings are rich and distinct. The midrib and margin of the leaf are of a clear orange-yellow, with the blade crossed with parallel bands and stripes of the same color.....	25 cts. to 50	Volutum , the leaves being rolled up from the end in a volute, after the manner of the curving of a ram's horn. Color deep green, a golden bar runs down the centre, from which yellow veins diverge at about half-inch intervals, and meet near to, and so as to coalesce with the golden margin.....	50
Multicolor , leaves irregular in shape, contracted in the centre and twisted at the point, light green blotched with yellow, but changing to glossy green blotched with yellow, reddish-yellow and red, the midrib crimson.....	25 cts. to 50	Weismannii , this is one of the most beautiful of all the forms: leaves about a foot long and three-fourths of an inch wide; ground color shining bright green striped and mottled with golden-yellow.....	25 cts. to 50
Spirale , the spiral leaves render it most distinct, they are from 9 to 12 inches in length and pendulous; in a young state, the ground color is deep green, striped up the centre with a broad band of golden-yellow; with age they change to a deep bronzy-green.....	30 cts. to 50	Youngii , a magnificent Croton; the leaves are of great substance, from 1½ to 2 feet in length, deep red underneath, while the upper surface is dark green, densely blotched and suffused with creamy-yellow and bright rosy-red.....	30 cts. to 50

HIBISCUS ROSA SINENSIS.--Chinese Hibiscus.

(All are Magnificent Plants for Bedding Out.)

Hibiscus, Collierii (new), a remarkably distinct variety. The flowers are of a buff-yellow, with a crimson-scarlet base, and are particularly handsome.....	25	Hibiscus, Miniata Semi-pleno , brilliant flowers of a vermilion-scarlet color, darker towards the base of the petals. The flowers are semi-double.....	25
Cruentus , the flowers are compact and double, of a remarkably rich crimson-red, and having a strikingly showy character.....	25	Lambertii , flowers large, of a deep crimson, very fine.....	25
Carminatus perfectus , it has very large flowers nearly 5 inches across, with broad and slightly undulated petals, of a rich soft carmine-rose, with a deep crimson eye.....	25	Rosa Sinensis , flowers deep crimson, single.....	25
Cooperii tricolor , beautifully variegated in foliage and flowers.....	25	Variegata , leaves beautifully variegated with white.....	25
Fulgidus , flowers very large, composed of fine, broad, round and beautifully undulated petals, of an intense carmine-scarlet.....	25	pleno rubra , double crimson.....	25
Grandiflora , this is a beautiful new plant in the way of the fine old plant <i>H. Rosa Sinensis</i> , it has very large flowers of rosy-crimson.....	25	Jaune , double yellow.....	25
Punicus , the flowers are double, neat and compact, of a very elegant crisp appearance, color bright dense crimson.....	25	Aurantica , double orange.....	25
		Schizopetalus , one of the most remarkable varieties of <i>H. Rosa Sinensis</i> ; the petals are deeply lacinated and fringed, as are the petals of Mignonette, Clarkia, &c. Its drooping flowers with reflected orange-red, and lacinated petals render this plant not only a curiosity, but highly valuable as a decorative plant.....	25
		Van Houttii (new), another magnificent flower, large, of a deep crimson, extra fine.....	25

Price \$2.50 per dozen.

PUNICAS.--Pomegranates.

Punica, Alba Pleno , double white.....	25	Punica, Nana Improved , it blooms freely in a small state, and larger specimens are sheets of bloom. Being such a profuse bloomer it is exceedingly desirable from its rich color, brilliant orange-scarlet.....	25
Legrelliae Pleno , reddish-yellow bordered with white, very double, splendid.....	25		
Rubra Pleno , double red.....	25		
Prolifera , a profuse flowerer.....	25		

GARDENIAS.--Cape Jasmine.

The Cape Jasmine is well known for its delicious fragrance, as well as the beauty of the flowers, which are large, white and double.

	Each.		Each.
Gardenia, Citriodora, single white, very fragrant.....	25 cts. to 50	Gardenia, Radicans, profuse bloomer, double white.....	20 cts. to 40
Camelliflora, large double white.....	25 cts. to 50	Variegata, variegated leaves, double white flowers.....	20 cts. to 50
Florida, large double white.....	25 cts. to 50	Fortunii, fortune's large double white.....	25 cts. to 50
Major, very large double.....	25 cts. to 50		
Majestica, very large double white.....	25 cts. to 50		

SWEET SCENTED VIOLETS.

Violet, Argentæflora (Lees), the largest and finest of all the single Violets. Flowers half an inch in diameter; bluish veined and suffused with lilac.....		Violet, Marie Louise, very fine double flowers, purple with white centre, forces well.....	
Belle de Chatenay, new double white violet. The flowers are pure white, most delicately perfumed, of immense size and very double....		Marie de Savoy (new), the largest of Violets, color deep blue with a white centre, very fragrant. This violet will be largely grown by florists; a grand flower.....	
Belle de Chatenay, violet colored (new), distinct and beautiful, very large and double.....	20	Princess Louise, double white, fine.....	
*Count Brazza's White Neapolitan, pure white, delicious fragrance, said to be a better grower than Swanley White.....	50	Rubra plena (new), double red violet, very distinct.....	
Czar, (single), very large purple, hardy and fragrant.....		Swanley White (new), a magnificent variety, flowers large double, pure white, deliciously scented.....	25
White (single), a pure white variety of the last, very desirable.....		Schœnbrun, ever blooming, single dark blue, very hardy.....	
Double Blue Neapolitan, light blue.....		Victoria Regina (Lees), this is a most beautiful single violet, pale blue.....	
Oderatissima (Lees), this is a beautiful new single violet, very large, color purplish azure...		Price 15 cents each, \$1.50 per dozen (save where priced.) Large plants in autumn, 25 cents each, \$2.00 per dozen.	

LAGERSTRAEIA.--Crape Myrtle.

Lagerstræmia, Indica Alba, white Crape Myrtle, a very beautiful shrub.....	25	Lagerstræmia, Indica New Crimson, bright deep crimson, no variety hitherto introduced approaching it in color; a profuse bloomer, giving immense heads of its rich flowers.....	25
Indica Rosea, rose or pink, the variety generally grown.....	25	The Crape Myrtle is well known in this latitude and South as our most beautiful summer flowering hardy shrub. North, it will need protection.	
Purpurea, a bright purple, a vigorous grower and free bloomer.....	25		
Magenta, color a bright magenta.....	25		

NEW AND RARE HARDY TREES AND SHRUBS.

Abelia Rupestris, a dwarf compact shrub, flowers pure white in long racemes during summer and fall; a beautiful shrub, quite hardy.....	20	Callicarpa Purpurea, it blooms in August; these are succeeded by a crop of small berries, which are of a bright lilac-purple, and which continues up to winter.....	25
Althea Cœlestis (Rose of Sharon, Hibiscus Syriacus), a distinct and beautiful variety with single blue flowers.....	50	Carpenteria Californica, this is an extremely rare shrub, even in its native habitat. It is a handsome shrub, the flowers being large, pure white, with yellow tipped stamens. Not quite hardy.....	1 00
Andromeda Arborea (or Oxydendrum), Sorrel Tree, a rare American small tree, known in Europe as Lily-of-the-Valley Tree, from the resemblance of its blooms to that lovely flower.....	50	Cedrela Sinensis, a very beautiful hardy tree of rapid growth, from north of China, with large foliage similar to Ailanthus, and yellowish bark. This is a very handsome new tree, very desirable for gardens, lawns, cemeteries, &c., its fine large, shining foliage being most distinct, and the tree, withal, perfectly hardy.....	50
*Azalea Ghent, in varieties, finest from seed, 50 to 100	1 00	Clerodendron Viscosissima (Bungeana), this is a handsome hardy shrub from Northern China; the flowers emit a delicious perfume; flowers lilac-rose, in dense terminal corymbs, a very desirable new shrub.....	30
Mollis (Japanese, in variety, very beautiful and hardy.....	50 cts. to 1 00	Climbing Hydrangea (Schizophragma, Hydrangeoides), this is described as clinging to trees to the height of 50 feet, producing corymbs of white flowers of the size of ordinary Hydrangeas. It clings exactly like ivy.....	30
Acer Polymorphum, dwarf Japanese Maple.....	50	Cocculus Carolinianus, a rapid growing climber, perfectly hardy. It produces racemes of vivid scarlet berries, which hang on the vines all winter.....	25
*Atropurpureum, foliage deep purple shaded with claret; a beautiful variety.....	1 50	Cratægus Lalændi, a variety of Pyracantha, much superior to the type, has deeper colored berries and a more compact and better habit....	25
*Dissectum, foliage similar to the above, but deeply cut.....	1 50	Daphne Genkwa (Japan Daphne), an exceedingly beautiful small shrub, with long downy twigs, which in spring before the leaves appear, bear violet colored fragrant flowers about an inch long; one of the most beautiful of early flowering shrubs.....	50
Rosea Pictis, foliage deeply and finely cut....	1 50		
*Palmatifidum Atropurpurea.....	1 50		
*Reticulatum, deeply lobed leaves, reticulated with white and yellow.....	1 50		
Rosea Marginatus, leaves tipped and edged with rose.....	1 50		
*Rufa Nerva.....	1 50		
*Sanguineum, blood leaved, deeply lobed, leaves a rich colored and very beautiful Maple.....	1 50		
*Japonicum, of slow compact growth, with large leaves; a very distinct and handsome species.....	1 50		
*Castenifolia, a very distinct and handsome Maple.....	2 00		
Aralia Seiboldi, a very handsome evergreen with large, shining, green leaves, nearly or quite hardy; a fine decorative plant.....	25 cts. to 50		
Chestnut Japanese, large, fruited.....	50		

	Each.		Each.
Desmodium Japonicum , a pretty dwarf Japanese shrub, which is quite hardy. Its drooping branches are entirely hidden by millions of its white flowers which are freely produced from August to beginning of winter.....	25	Othera Japonica , a beautiful Holly-like evergreen from Japan, hardy south.....	75
Penduliflorum , similar to the last, with purple flowers.....	25	Pyrus Maulei , this desirable new fruit is allied to the Japanese Quince. The fruit is of the size of a moderate Quince, of a bright apricot color, and makes a rich preserve. The flowers, which are produced in great profusion, are of a most brilliant orange-scarlet color. It is one of the most beautiful flowering trees of recent introduction, as well as a valuable fruit. Small plants.....	50
Dimorphanthus Mandchuricus , this noble deciduous shrub has been introduced from Manchuria, and therefore is perfectly hardy. Its handsome multifold leaves are about a yard in length, and as much in breadth, similar to <i>Aralia Japonica</i>	30 cts. to 50	Japonica Alba Semi-pleno , semi-double white Japan <i>Pyrus</i>	50
Gelsemium Sempervirens Pleno , double flowered Carolina Jasmine, an exceedingly beautiful climber; rich yellow flowers.....	50	Nivalis (Veitch) , purest white; a lovely shrub.....	1 00
Hydrangea Japonica (Mad. Von Siebold) , a fine new <i>Hydrangea</i>	50	Rhododendron Catawbiense , finest seedlings, 1 to 2 feet.....	50 cts., \$1 00 to 2 00
Ramis Pictis	30	Caucasica Alba , white.....	1 50
<i>rosea</i> , see <i>Novelties</i>		Maxima , large leaved, 1 to 2 feet.....	50 cts. to 1 00
Hypericum Patulum , its individual flowers, which are produced in bunches, are pale yellow and of great substance, resembling much in appearance the beautiful <i>Gardenia Javonica</i>	25	Punctatum , a very rare species.....	1 00
Japonicum , a pretty dwarf plant, flowers golden-yellow.....	50	*Staphylea Colchica , a very beautiful hardy shrub, flowers in early spring, pure white in clusters. Forces well.....	50
Idesia Polycarpa , a very beautiful new Japanese tree. The flowers are of a yellowish-green, in long gracefully drooping branched racemes. They are deliciously fragrant, their color resembling that of a <i>Vanda</i> . These are followed by numerous orange berries, about as large as a small cherry. Tree quite hardy.....	50	*Stuartia pentagyna , a scarce and beautiful native shrub with large pure white flowers, very desirable, quite hardy.....	50
Japanese Persimmon (Diospyros Kaki) , fine varieties.....	50	Spirea Bumalda , flowers rose.....	50
Ligustrum Japonicum Tricolor , a very fine variegated shrub, centre of leaf green, broadly margined with silver.....	25	Crispifolia , bright rose.....	50
Lonicera Gigantea , a shrubby species, large and fine.....	30	Rotundifolia Alba , pure white.....	50
<i>Planterensis (new)</i> , climbing species.....	25	Styrax Japonica , this is one of the finest hardy shrubs, of vigorous compact growth; blooms early and most profusely; the plants are sheets of bloom, which are pure white, most charming, admirably adapted for cemeteries.....	25
Muhlenbeckia Complexa , an exceedingly pretty trailing plant, with small round leaves thickly set upon the branches, having very much the appearance of a Maiden Hair Fern.....	25	Syringa (Lilac) , <i>Hyacinthiflora pleno</i> . A magnificent double flowered lilac; large thyrses of rich double lilac flowers.....	50
Neviusia Alabamensis ("Snow Wreath") , a new native shrub of great beauty. It occurred in thickets under a long escarpment of rock, and when in full bloom looked like a snow wreath. In its native place it had a southern exposure at the base of a high cliff, and at an elevation above the tops of the trees below; at that place I have seen virgate wreaths of it 3 feet long covered with bloom.....	30	Lemoinei pleno , another magnificent double flowered lilac, with immense thyrses of delicate rose colored flowers; a grand and exceedingly beautiful plant.....	50
Philodendron Amurense , a pretty medium sized tree from the Amour, with a straight stem and dense head and long pinnated foliage, produces the Siberian Cork. "In autumn the coloration of the leaves, which are bright red, is very fine. It retains its foliage very late.".....	50	Rubella pleno , immense thyrses of double mauve-colored flowers; a grand variety.....	50
Pæonia Moutan Banksæ , double Chinese Tree Peony. A magnificent flowering shrub, quite hardy.....	50 cts. to 1 00	Renoncule , very double, Ranunculus shaped, color azure mauve, immense thyrses, very fine.....	50
Perottia Persica , one of the rarest of shrubs, the foliage which is retained till late, colors beautifully in autumn and early winter.....	1 00	Wiegelia Incarnata , a beautiful bright colored variety.....	25
Prunus Pessardi , the most desirable of all purple-leaved trees, as it retains its deep bright purple color throughout our warmest summer weather, until matured in autumn. Fruit of medium size; color bright crimson from the time it is set. Very sweet. Second quality.....	50	Beranger , flowers crimson, very free.....	25
Phyllirea Vilmoreana		John Standish (Japonica) , large flowers of purplish crimson.....	25
		Ed. Andre , a very beautiful new variety, interior of flower purple, exterior very dark blackish purple.....	25
		August Wilhelm (new) , rosy amaranth.....	25
		Candida (new) , the finest and purest white.....	25
		Jean Mace , purple.....	25
		Othello , carmine.....	25
		Grandiflora Alba , a grand flower, purest white.....	25
		De Jussieu , rosy carmine, yellow centre.....	50
		Gavarni , beautiful rose carmine.....	50
		Zanthoceras Sorbifolia , this is one of the most beautiful hardy shrubs which have been introduced for years. It is a native of central China. It is a shrub or small tree, not attaining over ten or twelve feet in height and bushy. The flowers expand during April at the same time as the leaves, and are disposed in racemes which attain a height of eight inches, and sometimes more. They are white, having a slight fleshy tint and reddish copper colored at the base, shading off to a purple violet. This lovely shrub is perfectly hardy. Small plants.....	75

CLEMATIS.

Among the most beautiful of climbing plants are the Clematis—whether trained over lattice work, on pillars, or trailing on the ground. There can now be found among them great variety of colors; all are profuse bloomers and quite hardy; mostly in one and two year old plants.

CLASS I.

Perpetuals, summer and autumn bloomers flowering on shoots of the same year's growth, raised between *Lanuginosa* and *Viticella*, except those marked with (s), which are species.

	Each.		Each.
<i>Clematis, Alba Magna</i> (new), large, pure white flowers; a magnificent <i>Clematis</i>	50	<i>Clematis, Louis Van Houtte</i> , double white, rose azure stamens—a beautiful flower.....	50
<i>Alexandra</i> , large flowers, color reddish violet, blooms finely through the summer.....	50	<i>Lady Boville</i> , very free flowering, bright blue, 50	
<i>Ascotiensis</i> , the flowers containing six petals each, color a fine azure blue; it is a most profuse bloomer.....	50	<i>Lawsoniana</i> , a large and very fine flower, of a fine rose purple, a free and continuous bloomer, 50	
<i>Atropurpurea</i> , large and intense crimson blue, color pale mauve, eight sepals.....	30	<i>Lord Nevill</i> , a really first-class variety, flowers very large and well formed; rich dark plum, edgings of sepals being finely crimped.....	75
<i>Aureliana</i> , flowers large and of a lively porcelain blue.....	50	<i>Mad'lle Eliza Schenk</i> , a large and fine <i>Clematis</i> of a rich blue.....	50
<i>Andre Leroy</i> , an immense flower of the finest form, color rich violet, with a metallic hue; a grand flower.....	40	<i>Marie Boisselot</i> , an immense flower, pure white, the finest white <i>Clematis</i>	1 00
<i>Angelina</i> (new), very large beautiful flower, color pale mauve, eight sepals.....	75	<i>Moritaka Oke</i> , a beautiful new variety, satiny French white, closely set and slightly cupped, flowers very perfect in shape.....	75
<i>Belisaire</i> , very large, eight petals, bluish lilac, light centre.....	50	<i>Mrs. Hope</i> , satiny mauve, bar rather dark tint, sepals broad and overlapping, forming a full slightly reflexed flower.....	50
<i>Blue Gem</i> , flowers very large, shaded with mauve.....	50	<i>Mrs. Moore</i> , very large flowers, white, barred in centre with mauve.....	75
<i>Casimir Perier</i> (new), white, with underside rose, seven sepals, a large fine flower.....	75	<i>Mad. Granger</i> , flowers large purple violet with maroon midrib, redder than any other <i>Clematis</i>	50
<i>Coccinea</i> (s), a native Southern species, quite hardy, flowers small, bright scarlet; a very interesting plant.....	25	<i>Mad. Van Houtte</i> , a splendid variety; white suffused with a bluish mauve colored tint.....	50
<i>Duke of Edinburgh</i> , this is a fine variety, flowers large, six-sepaled, of a rich violet purple. One of the most attractive.....	50	<i>Montana</i> (s), a Himalayan species, flowers white.....	50
<i>Devoniensis</i> , flowers large, delicate azure blue, very free bloomer, extra.....	40	<i>Mrs. Baker</i> , white, with dark carmine ribbon, a large and beautiful flower, free bloomer.....	40
<i>Duchess of Teck</i> , flowers pure white, six-sepaled, with a faint, delicate mauve bar down the centre when first opened.....	50	<i>Mrs. James Bateman</i> , a very large lavender blue.....	40
<i>Duke of Norfolk</i> , a large beautiful flower, having eight sepals of a rich mauve.....	40	<i>Marie Lefebvre</i> , flowers from six to seven inches in diameter, delicate violet white with purplish lilac band in the centre of each petal.....	40
<i>Enchantress</i> , double white, large, extra.....	75	<i>Mad. Thibaut</i> , an immense flower; white, a broad band of rose in the centre of the petals.....	75
<i>Erecta pleno</i> (s), flowers double white.....	50	<i>*Otto Frobel</i> , this variety is remarkable for vigor, and the flower is of immense size and perfect in form, the sepals being sufficiently broad to be well imbricated. The color French white.....	75
<i>Fairy Queen</i> , flowers very large, occasionally measuring nine inches across; color pale flesh, with a pink bar in the centre of each sepal, shaded purple at the base.....	50	<i>Purpurea Elegans</i> , flowers large, fine form; color deep violet purple, well contrasted by its light colored filaments and pinkish brown anthers.....	50
<i>Flammula</i> (s), sweet scented, the flowers are small, pure white and fragrant.....	25	<i>Princess Beatrice</i> (new), amaranth-purple, a magnificent variety with broad overlapping petals of great substance, from 6 to 8 inches in diameter, and nicely frilled, color silvery lilac with pale stamens, quite distinct.....	2 00
<i>Fulgens</i> , violet purple, with a reddish band through the centre of each petal.....	40	<i>Princess of Wales</i> , large flowers of a deep rich violet purple, with red bars down the centre of petal; a beautiful variety.....	40
<i>Gipsy Queen</i> , an extremely rich, bright, dark velvety purple variety of the <i>Jacksonii</i> type; very free, late flowering.....	50	<i>Rubella</i> , flowers of a rich velvety claret, the deepest color of any <i>Clematis</i> , generally has six petals to each flower.....	50
<i>Grand Duchess</i> , a large flowered and very effective eight-sepaled variety; the flowers of which, in some instances, were as much as ten inches in diameter, but often only eight inches. The color is white, slightly flushed with rose.....	1 00	<i>Reine Blanche</i> , a lovely white flower, delicately margined, with sepals, fringed.....	50
<i>Gem</i> , a most profuse bloomer, continuing in full beauty late into the autumn; flowers large, a most intense rich blue.....	50	<i>Samuel Moulson</i> , mauve, with a reddish tint on the bars.....	25
<i>Gloire de St. Julien</i> , French white, a very large flower; very extra.....	50	<i>Star of India</i> , flowers from four to five inches in diameter; color rich violet purple, with a rosy purple band in the centre of each petal.....	40
<i>Graveolens</i> (s), a very distinct species, of rapid growth, a most profuse bloomer, color yellow—very distinct, quite hardy.....	25	<i>Symeiana</i> , delicate shade of pale mauve or lavender blue; a striking variety.....	50
<i>Henryi</i> , a magnificent large white flower; a free grower and most profuse bloomer.....	50	<i>Thomas Tenant</i> , white, with pale rose changing to ivory white, very handsome.....	50
<i>Herbert Spencer</i> , in the style of <i>Jackmanii</i> , large violet blue, extra fine.....	50	<i>Tunbridgensis</i> , flowers four to six inches in diameter, dark blue, and ribboned on the centre of each petal with purple.....	50
<i>Jackmanii</i> , a lovely hardy climber, with large flowers of a deep purple light violet; a profuse bloomer.....	50	<i>Thomas Moore</i> , deep rich violet tinted puce, a very large flower, occasionally nine inches in diameter.....	50
<i>Jackmanii Superba</i> , similar to preceding with larger flowers.....	1 00	<i>Viticella</i> , flowers purple, very fine.....	25
<i>Jean d'Arc</i> , flowers white, large and perfect, with three pale blue stripes on each petal. The plant is of a vigorous habit.....	40	<i>Venosa</i> , a reddish purple, reticulated with white.....	40
<i>La Nymphe</i> , flowers very large, pure white, with rosy stamens, fine.....	50	<i>Grandiflora</i> (new), a magnificent variety, free grower and free bloomer; color mauve, marbled and veined with white; very large flower with six and seven petals.....	50
<i>La Mauve</i> (new), light mauve shaded with violet.....	1 00	<i>Alba</i> (new), free grower and profuse bloomer, color pure white.....	50
<i>Lilacina Floribunda</i> (new), pale lilac, deeply veined; flowers the size of <i>Jackmanii</i> , but having six petals, perfect shape, fine.....	1 00	<i>Rubra Grandiflora</i> , a vigorous free growing variety, flowers profusely, color a violet red.....	40
<i>Lady Caroline Neville</i> , color delicate blush white, with a broad purplish band in the centre of each petal.....	50	<i>Kermesina</i> (new), a large fine flower; rich amaranth purple.....	1 00
<i>Lanuginosa</i> , a beautiful species, with light azure flowers, which form an admirable contrast to the others.....	40		
<i>Candida</i> , flowers large, pure white, beautiful, Nivea, a variety of the last, with large, white flowers, a very fine and distinct sort.....	40		

	Each.		Each.
Clematis, Velutina Purpurea , very profuse bloomer, color blackish mulberry.....	50	Clematis, Venus Vitrix , flowers double, of beautiful form, a delicate lavender, extra fine.....	1 00
Vesta , the flowers are five inches across, and consisting of eight or more spreading sepals of a dead white color, with a creamy tinge over the centre bar.....	50	Victoria , a distinct and handsome variety, flowers large, composed of five or six petals, deep reddish mauve.....	75
		12 very fine, my selection, \$4.00.	

CLASS II.

The following varieties flower in spring and early summer, from the old or ripened wood of the previous year's growth, have been raised from Patens.

Clematis, Albert Victor , a thick velvety texture, flowers large deep lavender, with brown ribs down the centre petal.....	40	Clematis, Lord Derby , a large flower with eight sepals; color pale lavender, very showy.....	50
Avalance , flowers large double white, extra.....	1 00	Mrs. George Jackman , the flowers are large, six inches across, flat, light sepaed, much overlapping so as to form a close and well filled flower, and sometimes producing a second row of petals; the color is a satiny white with a creamy bar.....	50
Countess of Lovelace , sepals a bluish lilac, within which is a rosette of small sepal-like bodies of deep bluish lilac, forming a full double flower.....	50	Maiden's Blush , flower large, eight sepals; color delicate rose with cream centre.....	75
Duchess of Edinburgh , without doubt the best of the double whites yet known, most deliciously scented, very free blooming.....	50	Miss Bateman , a magnificent plant; the blooms are large, of good shape and pure white, banded with creamy white down the centre of each petal.....	40
Excelsior , flowers large, finely shaped and occasionally double, the outer petals resembling the guard petals of a Hollyhock, color rich deep mauve.....	50	Miss Crawshaw , very large sepals, pale rose tinted with lilac.....	1 00
Fortunei , a very fine species from Japan, flowers double, white and fragrant.....	40	Mrs. Melville (new) , pale mauve, large beautiful flower.....	1 00
Florida Standishii , one of the most beautiful flowers, of a kind of violet blue, with crimson and carmine shining through it.....	40	Proteus (new) , double rosy purple, large, a grand flower.....	1 00
Fair Rosamond , the flower is fully six inches across. White with a bluish cast, having a light wine red bar up the centre of each sepal.....	40	Sir Garnet Wolseley , nearly six inches across, of a slaty-blue ground, having in the young state a very effective dash of bronze, and in the matured condition a showy and distinct bar of plum red.....	50
John Gould Veitch , a magnificent "Double Blue Clematis." It is a profuse bloomer, the flowers being very double, of a large size, and of a beautiful light blue.....	50	Stella , very showy. The flowers are of a light violet or deep mauve, with a distinct bar in the centre of each petal of a reddish plum color.....	40
Lady Lonsborough , color a delicate silvery lavender with a white stripe down the centre of each petal.....	40	The Queen , a free habit and remarkably handsome foliage, and flowers of a delicate lavender color; very beautiful.....	50
Lucie Lemoine , fine double white, the flowers are composed of seventy-five to ninety petals. In the first period of its flowering the blooms are semi-circular in shape, resembling a gigantic double white Ziunia.....	50	The President (new) , large fine flower, with eight sepals, color rich purple.....	1 00
		Uranus (new) rich violet purple, middle of petals mauve, eight petals; form perfect.....	1 00
		Very fine varieties, my selection, \$4.00 per doz.	

GESNERIAS.

These are bulbous-rooted plants which bloom magnificently during the winter months.

* Gesneria, Donkelaari , a remarkably fine plant for winter blooming, color rich vermilion.....	1 00	* Gesneria, Leopoldi , dwarf, compact, erect habit, umbels of a rich vermilion; an exceedingly beautiful plant.....	50
Diovalis (new) , large flower, orange scarlet, lip spotted, free grower and profuse bloomer.....	75	* Pyramidalis Ruberrima (new) , deep crimson, beautifully spotted, very fine.....	75
Jasminiflora , flowers of the purest white, freely produced, beautiful.....	30	Refugius , another superb winter flowering plant; color of flower between vermilion and amaranth, a charming plant.....	50
Miellezi , a very distinct, bluish-violet, very pretty.....	75	Verticillata , flowers spotted, very free and handsome.....	50
Regalis , large bouquet of lively vermilion flowers.....	75		

MISCELLANEOUS GESNERIACEOUS PLANTS.

Drymonia Turilvae , a beautiful bold leaf, very thick, with a silvery metallic appearance, and as easily cultivated as a Begonia. Also a good flowering plant.....	30	Rosanovia Ornata , creamy-white, covered with rose lines on the tube lobes, interior striped with dark purple; a fine variety.....	50
Isolomo Hirsutte , a very beautiful South American plant, with flowers of a rich orange-vermilion; lobe of orange-scarlet—a grand novelty.....	75	Citrina Rosea , pretty flowers, half yellow and half rose.....	50
		Hansteini , white shaded and spotted with violet.....	30
		Scheeria Mexicana Cœrulescens , fine blue.....	30

ACHIMENES.

Achimenes, Admiration , deep rose color, with light throat.....		Achimenes, Celestial , extra, violet-blue, Coccinea Purpurea, purple and scarlet. Copard.....	
Amb. Verschaffelt , white netted superbly with light pansy, orifice covered with golden rays.....		Dentonia , large blue.....	
Ami Van Houtti , very fine blue, centre yellow.....		Diamond , white, with purple reflex.....	
Argus , rich plum, orange eye, spotted carmine, Aurora.....		Diadem , magenta-carmine, yellow eye.....	
Baumanni Cœrulea , violet-blue, centre white, spotted purple.....		Docteur Benzod , carmine-violet, throat yellow spotted with crimson.....	
		Firefly , carmine, salmon-orange centre.....	

Achimenes, Lon. Macrantha, beautiful blue, very large.
Georgiana, scarlet, centre golden-yellow.
Splendens, dark scarlet, golden eye.
Grandiflora pleno, bright violet.
Grandis.
Hofgartner Mastrand, vermilion and purple, yellow throat.
Harry Williams, bright cerise, yellow eye.
Lady Littleton, magenta, centre orange.
Loveliness, magenta, centre golden-yellow.
Lon. Mad. Marthe, blue, orange centre.
Lon. flora pleno, blue, double.
Longiflora Alba Maxima, large white.
Mauve Queen, rich mauve.
Magnet, orange, spotted crimson.
Margaritta, pure white, fine.
Masterpiece, large, rose-violet, centre white.

Price 25 cents each, \$2.50 per doz.

Achimenes, Miniata, fine, small red.
M. de Rougemont, amaranth, veined with carmine-purple.
M. de Rougemont, amaranth purple.
M. Miellez, white, throat striped with lilac.
Pardina, orange-yellow, dotted with nasturtium-red.
Parsoni, copper-red pointed with yellow.
Patens Variabilis, dark purple, centre yellow.
Pink Perfection, satiny-pink, large and fine.
President Mallet.
Purpurea Elegans, splendid deep magenta.
Rosea Magnifica, violet-red spotted lemon, yellow centre.
Rose Queen, bright rose.
Semilosse, dark purple.
Unique, rosy-pink, orange eye.
Violacea Semi-pleno, violet, semi-double.
W. Muller, pure white eye, striped.

TYDÆA.--A Section of Achimenes.

The group of Tydæa includes the late autumn and winter flowering varieties, producing a long and brilliant succession of bloom, and include the most florid colors found in the other sections, of pure rose, amaranth, rosy-crimson, scarlet, cerise, rose-orange, tinted scarlet and white shaded with rose, elegantly spotted or barred in nearly the whole section.

Tydæa, Agar, white suffused with carmine and dotted with bright chamoy.
Alba Kermesina, white ground, shaded with a bright rose and beautifully marked with crimson.
Alexander, limbs and throat spotted blackish-carmine.
Belzebuth, crimson, covered all over with black spots, like the skin of a leopard.
Boule de Feue, very large flowers of the most intense crimson.
Celine Van Eckhaute (new).
Chamalières, superb flower, limb and throat golden-yellow, covered with a minium red network; a first-class variety.
Compacta Floribunda, of a velvety cherry-red with parallel markings of a bright amaranth.
Display, tube bright carmine; the mouth is a rich carmine and the throat white, blotched with orange.
Elliptica multiflora, dark purple, with white spots.
Etna, velvety-scarlet, regularly striped with black stem and peduncles deep blood red.
Gigantea, majestic growth, flowers vermilion and golden-yellow.
Juno, tube purple-red, limb scarlet, with reddish dots.
Lady Digby, brilliant crimson, beautifully spotted.
Leon Duval, lively carmine shaded with violet, limb lilac, dotted with crimson.
Madame Halphen, a fine flower, lower lobes lightly tinted with blue and spotted with carmine; the upper lobes shaded with carmine-rose.

Tydæa, Lindenii.
Madame Heine, carmine tube, lower lobes white, marked with spots of black, shading off carmine; upper lobes bordered with amaranth.
Madame Lavalée, tube rose color, lower lobes white, spotted with purple-carmine, upper lobes margined with carmine.
Montefiore (new).
Oscar Lamarche (new).
Pericles, tubes vermilion, limb golden yellow with a scarlet band, lined with crimson.
Quadricolor.
Robert le Diable, dark vermilion, covered with large jets, black fantastic figures.
Surabondant, tube carmine, limb white, pointed with purple.
Thalie, large flower, tube vermilion, limb lemon-yellow with large vermilion spots and flakes.
Tricolor, limb pure white, dotted with bright amaranth, tube crimson.
Uranie, finely striped with scarlet upon a lilac ground, orifice deep straw-yellow.
Vesuvius, large flower of a dark minium red, barred with black.
Wonder, magnificent; flowers, which are of a dazzling orange-vermilion, veined with black.
Xenophon, tube cochineal-orange, salmon-red lobes covered with a red netting, throat marked and spotted with carmine.
Zierken, dark fiery vermilion, striped with black, throat white, striped.

Price 30 cents each, \$3.00 per doz.

EUCODONIAS.

The sections of Eucodonia and Nægelia are typed in habit by the well-known Gesneria Zebрина, the flowers being produced on large terminal cone-shaped racemes in drooping funnel-shaped flower tubes of rich violet and bright rose, with pretty dotted centres.

Eucodonia, Amphitrite, fine flowers of lilac-rose, with three bands of orange-yellow.
Armide, tender, flesh color, slightly lilac, yellow throat.
Diane, lilac-blue, throat yellowish.
Ehrenbergi, sky blue flowers, very handsome.
Nægelioides Diamantina, large flowers of purplish-violet, very striking.

Eucodonia, Nægelioides Lilacini, a beautiful lilac with white throat, spotted and speckled with citron, lilac and yellow.
Nægelioides, large spikes, violet, changing to velvety crimson, centre of the throat bright yellow, spotted with crimson.
Van Houttei, large spikes, perfect form, vivid carmine spotted with flesh colored stripes.

Price 25 cents each; set of 7 for \$1.50.

NÆGELIAS.

Nægelia, Amabilis, fine panicle of snow white flowers with large lemon-yellow spots on the lower lip.
Alice, flesh colored, shaded carmine on tube on the edge of limb.
Artemise, salmon-yellow, throat golden-yellow.

Nægelia, Citrina Coronata, lemon-yellow, with vermillion spots.
Septre cresse, very bright vermilion cherry-red, covered with golden-yellow spots; magnificent and very large, smooth foliage of bronze-maroon.

Nægelia, Cerise d'or, cherry-red exterior, interior golden-yellow spotted with cherry-red.
Cliftoni, large corolla, yellow and vermillion spotted with crimson.
Daphne, tube and edge of the limb of a lively rose, centre pure white.
Evelynes, salmon-yellow, throat nankeen-yellow.
Fulgida Bicolor, upper part of flower vermillion, lower part marbled white, extra fine.
Concolor, a magnificent variety of a fine vermillion.
Gabriella, carmine bordered with white, throat jointed carmine on yellow ground, extra.
Leichtlini, pure yellow flower, shaded at the summit with deep red.
Leonie, numberless lemon-yellow flowers, a first-class variety.

Price 30 cents each, \$3.00 per doz.

Nægelia, Mastouche, carnation, bordered with nasturtium-red, inside white spotted with flesh.
Helene, crimson, throat white pointed with crimson.
Mad. Carriere, coral red, shaded with carmine, interior yellow.
Mad. Van Houtte, bright rose, sprinkled with carmine.
Morgenlicht, finely formed, golden yellow flower.
Nikita, inside white spotted with vermillion, exterior orange.
Reine Marie Henriette, orange, with dottings of the same color upon a cream colored ground.
Pierrot, pale yellow, spotted with carmine, throat golden-yellow, tube carmine.
Pollux (L. Van Houtte), flower of perfect form, dark rose tube, throat yellow, spotted with carmine.

PLECTOPOMAS.

Plectopoma, Bicolor, tube flesh colored, tinted on the exterior with red, interior lemon-yellow.
Candidum, snow white with broad lemon-yellow blotch.
Coralinum, very large coral-red flowers with yellow blotch.
Flamme de punch, large rose, flaked with punch flames and adorned with pure white hieroglyphs.
Great Eastern, large light rose flowers, whitish-macule, pointed with carmine.
Gibsonii, fine dark blue flowers.
Gloxinaeflora, large white flowers, throat golden-yellow, blotched with scarlet.
Hieroglyphicum roseum, rose color ornated with hieroglyphs flowers

Price 30 cts. each, \$3.00 per doz.

Plectopoma, George Loddiges, rose, ornated with white hieroglyphs, golden-yellow throat, covered with vermillion dots.
Labyrinthicum, rich vermillion with fantastic figures resembling geographical demarcations.
Rollinsonii, fine pale blue flowers.

Sauvissima, size and form unequalled, delicate rose spotted with crimson.
Triumphans, corolla lilac, interior white with fine amaranth spots and pretty lemon-yellow bands.
Viola, rose ornamented on the upper part with a large white spot, sprinkled with carmine and flaked with citron.

GLOXINIAS.--Class 1.

The varieties of this genus are all very handsome, producing abundance of magnificent flowers of a most beautiful description. The tubers should be potted in February or March. Place in a little heat to start them into growth; water sparingly till the plants are well established. When in bloom bring them into the conservatory or drawing-room. After the plants have done blooming dry gradually off, by withholding water from their roots; afterwards remove them to a warm, dry place.

The following are superlatively beautiful:

Those marked thus (e) have erect flowers.

Gloxinia, Agnes M. Saul (Saul), light crimson scarlet, large flower, very fine.
Artevelde, flowers enormous, velvety violet, edge of the throat blackish purple.
Boule de Neige (e), pure snowy white, fine form, an abundant bloomer.
Boule de Feu (e), a fine large flower of the most intense and brilliant red color.
Byron, white ground; the margin of the limb is amaranth festooned with purple.
Cardinal de Richelieu (e), creamy yellow, throat spotted with purple and ornated with a rich violet and crimson.
Cinderella (e), pure white with pink band, most beautiful.
Diademe, white, centre of lobes reticulated with carmine.
Duchess of Teck, large drooping flowers of a rich magenta, shaded with maroon; the ground color is lighter at the edges of the lobes.
Ernst Banary, dark lavender, mottled with white, a beautiful flower.
Excelsior, horizontal, with lower side lobes of corolla enlarged; deep glowing crimson; a very robust free flowering variety.
Francis Saul (Saul), blue, with a deep purple throat, a large finely formed flower.
Gossee, rich lilac bordered with white, extra.
Henry Husson, white, with a lavender lip, a large showy flower, beautiful.
Henri Fleche (e), Magenta, brilliantly shaded with red at the mouth; edges of the lobes widely bordered with snowy white.
Harry Veitch, violet, throat lavender.
Isoline, white flower, zonated and spotted with light carmine.

Gloxinia, Lisere D'Argent (e), intensely bright crimson scarlet, distinctly margined with pure white; light throat beautifully spotted and freckled with carmine.
Madame Hatti, fine scarlet flower, throat deep red shaded with purple, slightly blotched with white, margin rosy scarlet.
Miss Hannah de Rothschild, large white, tinted with purple; throat purple shaded mauve, lower part creamy white.
Mrs. Haines (e), splendid erect flower, throat purplish violet, bordered with vermillion scarlet, with deep margin of rose color.
Mon Caprice (e), soft mauve, the divisions of the lobes to the tubes white; very pretty.
M'lle A. Martin, rich magenta, striped with solferino, lobes bordered with white.
M'lle M. Moreau (e), rose spotted and shaded with carmine, throat rayed with lilac.
Mrs. Wm. Bull, rosy red flaked and bordered with white.
Milton, indigo blue, shaded; lobes have a white margin spotted with violet.
Ne Plus Ultra (e), flowers extra large, lobes of corolla deep violet purple, edges lighter, throat well colored, a superb variety.
Notaire Moens, large superb flower, white, covered with large carmine dots, borders of limb pure white.
Prince Arthur, a large deep purple flower, the two upper lobes and margin light purple.
Prince Leopold, throat purplish violet, scarlet margin shaded with pink.
Reine Marie-Henriette (e), a first-class variety; large white flower, zonated with violet blue, beginning of the throat striped with deep carmine.

Gloxinia, Rosy Morn (e), flowers of fine form, rosy scarlet, very attractive.
Rosina Saul (Saul), white with lavender throat, a chaste and beautiful variety.
Scarlet Gem, crimson scarlet, extra fine.

Price 25 cents each; \$2.50 per dozen.

NEW GLOXINIAS.—(Class 2).

Gloxinia, Baron A. de Rothschild (e), very large and of fine form, white, completely reticulated and spotted with carmine.
Avocat D. Waldack (e), very lively velvety carmine flower, edged with pale rose.
Alph. Daudet (e), white tube, carmine violet limb, bordered with white, dotted with violet, of first-class.
Andre Vesale (e), very beautiful flower, rich violet carmine.
Beauty of Annerly (e), tube light, corolla dark crimson; very fine.
Berence (e), large finely shaped flower; rich violet red.
Caleb.
Cenderilla.
Desillusion (e), fine open flower, white, entrance of throat violet.
Eclipse (e), rosy crimson with lighter margin, very bright; throat violet.
Esperance.
Fulgida (e), vermillion red, a magnificent flower.
Gracieuse (e), very large flower, yellowish white with tender flesh-colored limb, rose at the entrance of throat.
Hermine.
Jos. Souleary, deep crimson, white margin, very beautiful.
Jean Aicard (e), large, of good form, of a fine lively rose, reticulated and dotted with carmine, of first-class.
Lancolot.
L'Eclair (e), dark crimson marbled carmine, the throat encircled with bright red and dark blue; distinct.
La France (e), rich bright scarlet, rayed with crimson, and shaded with orange.
La France, white, striped with claret red at the orifice of the corolla, lobes dotted with lilac.
Madame Pynært (e), white shaded with blue; the lobes ornamented with violet crimson, the tube finely reticulated.
Madem. Gabrielle de Nocker (e), large, tender violet flower, beginning of the throat velvety violet, bottom spotted.
Madem. Valentine de Nocker (e), a first-class variety, large, milky white, beginning of the throat fine dark violet.

Gloxinia, Sang Gaulois (e), a rich bright red color with golden reflections; dull red throat.
Theresa Saul (Saul), white, with crimson lips, fine.
Winifred Lawley (Saul), throat purple, margined with white, extra.

Gloxinia, Mon Caprice, mauve, division of the lobes and tube pure white; extra.
Mignon, light violet throat white, spotted with blackish purple.
Mad. Alice Guilmot, pure white flower, beginning of the throat lively velvety carmine.
***Mad. Montefiore-Levi-Bischoffsheim** (e), large, lively light carmine, reticulated with darker carmine, of first-class.
Macaulay (e), white shaded with blue on the limb and dotted with violet, entrance of throat largely lined with carmine.
Montezuma (e), spotted all over with rich purple; a lovely flower.
Mrs. John Saul (Saul) (e), very large, finely shaped; deep crimson, with lighter margin, a rich and beautiful variety.
Miss Mary C. Saul (Saul) (e), white ground densely speckled all over, throat and flower with rich carmine.
Orpheus.
President Cleveland (Saul) (e), a large and beautiful flower, rich vermillion, throat speckled.
President Lavallee.
Papillon (e), white, lined and spotted with light carmine, each lobe strongly blended with the same color.
Purity (e), pure white, the largest white variety yet obtained; very effective.
Reine Marie-Henriette (e), a first-class variety; large white flower, zonated with violet blue, beginning of the throat striped with deep carmine.
Stanley (e), white, entirely streaked with violet, blotched with carmine at the intersection of the lobes, throat straw yellow, spotted with carmine rose.
Socrotaire, immense flower, white ground spotted crimson.
Souvenir (e), lively velvety carmine, intersected at the throat entrance, by a fine white stripe, bordered with white.
William Bull, double corolla, white ground variegated with crimson, orated with a flesh colored dotting variegated on its reverse with stripes and flamed.
Wm. J. Saul (Saul) (e), flowers large and fine, rich purple, speckled; throat fine.
Zoroaster (e), large fine flower; bright rose.

Price 50 cents each; \$5.00 per dozen.

Price 30 cents each; \$3.00 per dozen. Ready in May.

MISCELLANEOUS DAHLIAS.

Each.
Dahlia, Annie Harvey, it would be difficult to over-describe this variety; in formation it is identical with the variety Constance, but having smaller flowers, which are produced freely, while the color is a beautiful scarlet crimson. Ready in May. 40
***Constance** (White Cactus Dahlia) flowers are of the purest white, and good shape; are produced very freely, and are much in demand for cutting, floral decorations, &c. 25
***Cochineal**, the richest of crimsons, toned with a brownish shade; for the purpose of supplying cut flowers it is most serviceable, and stands remarkably well in a cut state; as a proof of its special fitness for cutting purposes, I may mention the fact that ladies single out this variety in preference to almost any other for personal and other decorations. It cannot fail to be extensively grown. Ready in May. 40

Each.
Dahlia, Fire King (Glare of the Garden), a most useful variety, producing myriads of flowers of a dazzling scarlet, somewhat in the way of a miniature Juarezzi; this is a variety of very considerable merit, both for general border decoration and for cutting and should be extensively grown. Ready May 1st. 20
Juarezzi (Cactus Dahlia), dazzling scarlet, long petals curiously twisted at the points; they are as brilliant as those of a Poinsettia, and resemble somewhat the flowers of a Cactus; a grand bedding Dahlia. 20
Glabrata, a dwarf growing species, about 2½ ft. high, producing from August until cut off by frost, myriads of small lilac blossoms with a yellow centre, a little gem for cutting purposes, and one of the earliest in bloom. Ready in May. 25

Clitoria alba , a pretty white variety.....	30	Maurandya Barclayana , a very elegant vine, flowers purple.....	15
Cœrulea , a climbing plant of moderate growth, which flowers freely during summer; flowers in clusters of deep mazarine blue, pea-shaped flowers.....	25	Alba , a fine white variety.....	15
Ipomæa noctiflyton (Callancton Grandiflora) (Evening Glory), an exceedingly vigorous grower, which opens during night; flowers very large, pure white.....	20	Rosea , flowers of bright rose.....	15
Insignis , crimson flowers, fine for planting out during summer.....	25	Madeira Vine (Boussingaultia Basseloides), a vine of rapid growth with fragrant white flowers.....	\$1 per doz'n. 10
Michauxii		Manettia cordata , a climbing plant, which succeeds admirably bedded out during summer. The flowers are orange scarlet and given in the greatest profusion.....	25
Siniata , white, cerise centre, fine rapid grower for outdoors during summer.....	25	Physianthus albanus , a fine climber, with white flowers.....	20
		Pharbitis hispida Dickensonii , fine azure blue Morning Glory.....	25
		Pilogyne suavis , a rapid growing vine, flowers small, very sweet.....	20
		Solanum jasminoides , flowers rosy purple, free growth.....	20

GREENHOUSE VINES OR CLIMBERS.

Allamanda Hendersonii or Wardleiana , a distinct and beautiful species which blooms quite small and continues flowering nearly the whole year; the flowers are circular, of great substance, color of a rich deep yellow, fine habit.....	30	Passiflora cardinalis , scarlet flowers, greenhouse climber.....	25
Nobilis , a distinct and beautiful new species, flowers equally as large as the finest form of <i>A. Hendersonii</i> , of a pure rich yellow, but which are greatly superior in form to others in cultivation, by their large firm lobes being more widely imbricated.....	30	Cœrulea , cœrulean blue, a beautiful old variety nearly hardy, requires only slight protection in severe weather.....	20
Cathartica , fine rich yellow, free.....	30	Incarnata , this variety is perfectly hardy in this latitude. In very severe winters it is killed to the ground, but on the return of spring, it puts out with great vigor, growing luxuriously, and flowering profusely during the summer months; similar in color to <i>Cœrulea</i>	15
Nerifolia , flowers smaller but most profuse, yellow.....	30	Imperatrice Eugénie , rosy lilac, filaments of the corona violet and white leaves, three lobed, dark green.....	50
Bougainvillea glabra , this is the freest grower and bloomer of the genus; color a rosy pink.....	40	Loudonii , crimson, fine.....	25
Bignonia venusta , a beautiful free growing winter climber, flowers orange.....	40	Pfordtii , bluish-purple, free.....	25
Chamberlaynii , fine yellow.....	50	Prof. Eichler (new), a hybrid between <i>Loudonii</i> and <i>Prinsepis</i> , bright scarlet.....	75
Speciosa , a very splendid species, flowers white, shaded lavender.....	50	Prinsepis , flowers rich crimson, a very fine greenhouse climber.....	50
Cissus Lindenii , the foliage of this showy plant is bright green, veined and banded with silvery white.....	25	Schmittii , bright carmine.....	25
Discolor , foliage, beautifully shaded with silver, crimson and purple.....	25	Trifasciata , leaves dark green, tri-lobed, each lobe having a broad central band of rose, a very distinct Passion flower, flowers white.....	25
Porphyrophyllus , large and fine foliage.....	30	Rhynchospermum jasminoides , a lovely winter blooming climber, with white fragrant Jasmine-like flowers.....	25
Campsidium filicifolium , a free growing slender woody climber, from the Fiji Islands. The leaves from their size and form, are strongly suggestive of fronds of some small growing pinnate Asplenium.....	20	Variegated , variegated leaves.....	25
Hardenbergia Comptoniana , pretty greenhouse climber, with rose and purple flowers.....	40	Stigmaphyllon ciliatum , a pretty vine with yellow flowers.....	40
Hexacentris Mysorensis , a beautiful climbing plant, flowers yellow and crimson.....	50	Tacsonia Van Volxemii , scarlet Passion flower, <i>Buchananii</i> (Villifolia), another magnificent conservatory climber, with brilliant orange scarlet flowers, most profuse bloomer, and one of the finest passion flowers.....	50
Myrsiphyllum asparagoides (Smilax), beautiful climber for wreaths, &c.....	20	Jamesonii (new), flowers of rich purple, a beautiful new species.....	75
Mandevilla suavis , greenhouse climber, with lovely white fragrant flowers.....	25	Exoniensis , color a glowing scarlet; a rich and very beautiful Passion flower.....	50
Passiflora alba , white passion flower, greenhouse climber.....	25	Tecoma jasminoides , flowers white, with crimson centre, a lovely climber.....	15
Alata , petals reddish crimson, blue filaments, sweet scented.....	25	Thunbergia laurifolia , this magnificent climber cannot be too highly praised. To the Florist, and all who require winter blooms, it is indispensable, as it flowers in the greatest profusion during the winter months. Color delicate violet blue.....	40
Arc-en-ciel , "very large flowers; raised part pure white, centre citron-colored, outer circle dark, inner circle white shading to blue.".....	25	Fragrans , another valuable winter blooming plant, flowers pure white, and free flowerer.....	25
Buist's Hardy , blue, free bloomer.....	25		
Constance Elliott . See novelties.			

MISCELLANEOUS GREENHOUSE AND HOTHOUSE PLANTS.

Araucaria Bidwellii	\$1 00 to 2 50	Abutilon , Duc de Malakoff Variegata , large leaves, blotched or mottled with white and gold.....	10
Abutilon Boule de Nieve (a colored plate, 1874), pure white flowers.....	10	Thompsoni Pleno , new double <i>Abutilon</i>	
Marmoratum	10		

	Each.		Each.
<i>Abutilon, Darwinii</i> , orange scarlet, veined with pink, opening like a parasol.....	10	<i>Daphne Odorata Alba</i> , white flowers, very fragrant.....	25 cts. to 50
<i>Tessellata</i> , an exceedingly beautiful variegated variety.....	20	<i>O. Rubra</i> , nearly white, outside of flower shaded, very fragrant; the variety usually grown, 25 to 50	
<i>Roseum Superbum</i> , rose color, veined with a delicate pink.....	10	<i>*Mazeli</i> (new), this beautiful Japanese <i>Daphne</i> differs from all the preceding varieties in the flowers being borne on short lateral branchlets all along the branches, instead of, as usual, in dense clusters at the end of the branches. Flowers during winter, tube rosy crimson, petals white shaded with pink, very fragrant foliage, variegated with yellow. Small plants.....	1 00
<i>Variegatum</i>	15	<i>Doryanthes Palmeri</i> (Queen's Land Lily), the flower-scape rises from the centre eight feet in length, forming densely clothed pyramidal compound racemes, much like those seen in various <i>Yucca</i> species. Flowers numerous, approaching in size and form to those of the well-known <i>Vallota purpurea</i> from three to four inches in diameter, of a rich peony crimson hue, with a white centre. Each blossom is accompanied with leaf bracts of an equally rich color as the flower.....	1 00
<i>Acalypha Tricolor</i> , foliage irregularly blotched and mottled with crimson, a very distinct plant, fine for bedding.....	23	<i>Eranthemum Andersonii</i> or <i>Elegans</i> , of free vigorous growth, producing long terminal spikes of its pure white and rich lake flowers during winter.....	25
<i>Macrophylla</i> , a large leaved variety, blotched and mottled, fine bedding plant.....	20	<i>Eldorado</i> , foliage golden yellow.....	25
<i>Macafeana</i> , leaves frequently cut into many forms, and very highly colored bright red, blotched with deep bronzy crimson.....	20	<i>Igneum</i> , foliage finely variegated yellow and black.....	50
<i>Marginata</i> , leaves beautifully margined.....	20	<i>Pulchellum</i> , flowers deep blue during winter, very handsome.....	25
<i>Acacia Armata</i> , early free flowering, deep yellow, Decurrens, free, vigorous grower.....	50	<i>Laxiflorum</i> , it is a plant of much beauty, corolla spreading and of a purplish-crimson, quite unique; flowers during autumn and winter... 25	
<i>Suaevoleus</i>	50	<i>Tuberculatum</i> , flowers during winter, pure white in profusion.....	25
<i>Sorts</i>	50	<i>Erythrina Crista Galli</i> , beautiful summer flowering plant with dark crimson coral-like flowers. The roots, which are fleshy, can be put away in a cellar, like Dahlias, during winter. There is no plant more valuable than this for bedding out in our climate, and very beautiful, 25	
<i>Agave Victoria Regina</i> , this is the most beautiful of all the Agaves. Small plants.....	1 00	<i>Madame Belangier</i> , a very beautiful coral plant, dwarf compact habit, very free flowering, 30	
<i>Americana</i> (American Aloe).....	25 cts. to 50	<i>Compacta</i> (new), a fine compact growing plant, flowers freely, color rich crimson. A magnificent plant for bedding out.....	50
<i>Variegata</i>	50	<i>Eupatorium Riparum</i> , white, blooming January until march.....	10
<i>lineata</i>	50	<i>Elegans</i> , fine winter bloomer, pure white.....	10
<i>Montana</i>	50	<i>Triste</i> (Hebechinum <i>Macrophyllum</i>), flowers pure white, blooming in January and February. A very useful plant for florists.....	15
<i>Anthericum Variegatum</i> , the foliage is of a bright grassy green, beautifully striped and margined with creamy white.....	25	<i>Euphorbia Sanguinea</i> , a good old plant, the foliage is a purplish crimson, distinct from other dark colored foliage plants.....	15
<i>Ardesia</i> , a pretty plant, which gives a profusion of scarlet berries during winter.....	50	<i>Atropurpurea</i> , foliage blackish purple, fine for bedding from its very dark color.....	20
<i>Alba</i> , white berried.....	25 cts. to 50	<i>Jacquiniaeflora</i> , invaluable for winter blooming, of the richest scarlet.....	25 cts. to 50
<i>Æschynanthus Lobbianus</i> , a trailing plant, flowers crimson and black, grand basket plant, 50		<i>Splendens</i> , blooms during winter, flowers scarlet.....	30
<i>Asclepias Curassavica</i> , a very ornamental plant for summer decoration, blooming from July to November, growing about three feet in height; the stem terminated with heads of yellowish scarlet flowers.....	20	<i>*Francisea Eximia</i> , a pretty winter flowering plant with purplish violet flowers.....	50
<i>Aspidistris Lurida Variegata</i> , a large foliage plant, leaves finely striped with white and green. A very valuable plant, and nearly or quite hardy.....	30 cts. to 50	<i>*Confertiflora</i>	50
<i>Brugmansia</i> (<i>Datura</i>) <i>Knightii</i> , beautiful large double white flowers.....	25	<i>Hoopeana</i> , flowers violet purple, beautiful.....	50
<i>Browallia Elata Coerulea Major</i> , a plant of quick compact growth, with rich blue flowers, fine for bedding or winter blooming in the greenhouse.....	10	<i>*Lindeniana</i> (new), a very lovely species, flowers in winter, violet-purple.....	75
<i>Bryophyllum Calycinum</i>	25	<i>Fabiana Imbricata</i> , a heath-like plant, with pretty white flowers.....	29
<i>Cedronella Mexicana</i>	25	<i>Fittonia Argyroneura</i> , a trailing plant with light green foliage, beautifully striped with white.....	20
<i>Camellia Sesangua</i> , single rosy crimson flowers, 50		<i>Ficus Repens</i> , an admirable plant for hanging baskets, etc.....	10
<i>Alba</i> , pure white, semi-double.....	50	<i>Mimima</i> , small leaves.....	10
<i>Camellias</i> , of this beautiful class, we grow a fine collection. Price 50 cents to \$1 and upwards, according to size.....	50	<i>Goldfussia Anisophylla</i> , a fine growing winter flowering plant, color blue.....	20
<i>Choisya Ternata</i> , this is a free growing and beautiful plant, a profuse bloomer, pure white sweet scented flowers, like orange blossoms.....	50	<i>Grevillea Robusta</i> , a fine decorative plant.....	25 to 50
<i>Cyperus</i> (Nile Tufted Grass), <i>Laxus</i> , an exceedingly graceful and distinct species.....	20	<i>Gymnostachyum Pearcei</i> , in every respect one of the most beautiful of foliage plants.....	20
<i>Alternifolius</i> , a tufted grass with alternate leaves.....	20	<i>Gigantum</i> , in this species we have a plant of equal beauty with others of the genus.....	15
<i>Variegatus</i> , a variety of the last, with handsomely variegated leaves.....	25	<i>Verschaaffeltii</i> , stems of a reddish tinge, red leaf stalks, upper surface of the leaf richly painted with reticulations which vary red into brilliant scarlet.....	15
<i>Coccolaba Platyclada</i> , a singular flat stemmed plant, has no leaves like a cactus.....	25		
<i>Campylobotrys Discolor</i> , pretty variegated foliage.....	25		
<i>Crassula Lactea</i> , a very beautiful winter flowering plant of easy culture, flowers freely, color pure white. For cultivating in windows few plants succeed as well as this.....	25		
<i>Cordata</i> , another fine species for winter blooming; color pure white, of free growth and profuse flower.....	25		
<i>Falcata</i> (Rocha), crimson flowers, beautiful.....	50		
<i>Curcuma Cordata</i> , it grows 1½ to 2 feet high and the showy part of plant is the peculiar lip-like bracts with which the erect flower spike is thickly furnished.....	50		
<i>Curculigo Recurvata</i> , a remarkably graceful Palm-like plant, suitable for decorative purposes.....	25 cts. to 50		
<i>Dalechampia Roeziana Rosea</i> , this fine plant blooms very freely, and produces its flowers nearly throughout the year, but especially so during winter.....	40		

Each.	Each.
Graptophyllum Pictum, leaves deep green with a large blotch of bright gold in the centre, a beautiful foliage plant, requires a hothouse.....	25
Hoya Carnosa, Wax plant, a very beautiful and well-known plant.....	25
Carnosa Variegata, centre of leaf green margined with silver.....	25
Paxtonii, a distinct and beautiful plant.....	50
Impatiens Hookeriana, flowers white, with deep blood colored veins on the lower portion, blooms during winter.....	25
Justicia Carneae, a winter bloomer, flowers pink	20
Jasminum Grandiflorum (Catalonian), beautiful white Jasmine.....	25
Grandiflorum Semi-double.....	25
Hirsutum, a beautiful winter flowering Jasmine, flowers in wreaths and bunches of the purest white, deliciously scented.....	25
Revolutum, yellow.....	25
Kadsura Japonica Marginata, a beautiful half hardy climber, foliage green, margined with gold.....	25
Koempferia, Species, very fine foliage plant.....	25
Linaria Cymbalaria (Kenilworth Ivy), a pretty trailing plant.....	10
Leea Coccinea, a large, fine foliage plant.....	40
Lingularia Kempferi Argentea, a herbaceous plant, nearly or quite hardy, with large, finely variegated leaves.....	25
Libonia Penrhosiensis, freely producing its fine showy flowers, which are of a bright, rich crimson color. It blooms in the depth of winter.....	15
Linum Trigynum, yellow flowers, produced abundantly during winter.....	25
Laurestinus (Viburnum Tinus), for winter flowering.....	20
	
PEPEROMIA.	
Lasiandra Splendens, violet purple flower, fine for winter.....	40
Macadamia ternifolia, Queen's Land nut.....	50
Mathenia Odorata, winter bloomer, flowers yellow, fragrant.....	10
Mikania Violacea (Parlor Ivy), a creeping plant with purplish upper surface of leaf.....	10
Perverulenta, another pretty and distinct species.....	20
Mackaya Bella, this most beautiful plant is a native of Natal. The flowers have a pale lilac corolla, nearly two inches long, the throat ornamented with most delicately pencilled reticulated purple veins, tubular below, campanulate. The plant is very floriferous.....	30
Meyenia Erecta, purple flowers, pretty plant.....	25
Alba, white.....	25
Myrtus Communis, small leaved Myrtle.....	20
Magnolia Fuscata, a very fragrant species, strong plants.....	
Nerteria depressa, it forms a dense green moss, leaves small, in the fall it is covered with small berries.....	25
Othonna Crassifolia, an exceedingly beautiful plant for hanging baskets.....	10
Ophiopogon Spicatum Argentea Marginatum, a half hardy Japanese plant, with broad grassy leaves, margined with white, and producing freely white flowers.....	25
Aurea Marginatum, similar to the last, but in this variety the variegation is a deep yellow.....	25
Olea Fragrans, fragrant Olive.....	50
Orchids, a large collection of East Indian, Mexican, South American, &c., a catalogue of which will be mailed on application.....	
Primrose English, Double Lilac.....	25
White.....	40
Yellow.....	40
Panax Fruticosum, a plant closely allied to Aralia, with beautiful fern-like foliage; a fine decorative plant.....	30
Peperomia Argyrea, } Dwarf growing plants, suitable for baskets and wardian cases. The leaves are delicately blended, being bright green along the line of the nerves.....	15
Magnoliifolia, }	
Verschaffeltii, }	
Plumbago Capensis, we have no plant of the same color to approach this for summer bedding. Plants bedded out in May will continue flowering through the summer; color a delicate azure blue. The plants can be kept in a cellar during the winter.....	25
Larpetæ, like the last, this blooms through the summer, color bluish purple, quite hardy.....	15
Rosea, flowers rose color, fine for bedding or winter blooming.....	25
Poinsettia Pulcherrima, fine winter blooming plant.....	25
Alba, white flowered.....	50
Philodendron Lindenianum, leaves of a delicate satiny green, shaded with metallic olive color on the upper surface, the under part pale green, ornamented with bands of maroon; the young leaves are of a bright chamois color, and the maroon bands of the under parts penetrate through to the upper, so that the coloring of the plants has a glistening and indescribable effect.....	50
Pittosporum, Tobira, very fragrant shrub.....	25
Variegata, variegated.....	25
Primula Sinensis Fimbriata, fine seedling plants raised from the finest strains of single flowers, various shades of color.....	25
Rhodea Japonica, leaves green, edged with yellow.....	40
Rogiera Amcena.....	30
Gratissima (new).....	50
Winter flowering plants, as fragrant as the Heliotrope.....	
*Rhododendron formosum, a fine Indian species, flowers white.....	1 00
Rondeletia Speciosa Major, a very beautiful stove plant, flowers scarlet, very fine.....	50
Russellia Juncea, pretty basket plant, scarlet flowers.....	15
Ruellia formosa, a free winter blooming plant, with scarlet flowers.....	15
Rudgea Macrophylla, a handsome plant, flowers cream color. The under side of the young leaves has a peculiar satiny lustre, flowers in massive clusters of white wax-like flowers, which in an unopened state resemble berries.....	50
Sanchezia Nobilis Variegata, leaves of most intense green, the veins being broadly margined with golden yellow.....	25
Senecio Scandans.....	10
Scutellaria Mocciana, a new and pretty free flowering plant.....	25
Stevia Compacta.....	15
Glutinosa.....	20
Nana, a new dwarf variety.....	15
Syngonium Albo-lineatum, a pretty variegated creeping plant.....	30
Torenia Asiatica, rich blue and dark violet.....	15
Bellonii, a pretty variety, similar to the last in habit, and like it, suitable for bedding out; bright yellow, with a black eye, very distinct.....	20
Fournieri, the habit is more compact than T. Asiatica, the flowers are richer in color and more freely produced. It succeeds admirably bedded out.....	10
Tradescantia Repens Vittata.....	10
Multicolor, Madam Lequesne, the leaves are pale green, beautifully variegated with white and rosy purple; sometimes the leaf is entirely suffused with either color.....	15
Discolor, two colored.....	25
Striata, a pretty striped variety.....	10
Zebrina, Zebra plant.....	10
Vanilla Aromatica, the well known Vanilla of commerce.....	50

MISCELLANEOUS BEDDING PLANTS.

	Each.		Each.
Abutilons.....	10	Gnaphalium Tomentosum, silvery leaves, fine for bedding.....	10
Acalyphas, in sorts.....	15	Gynura Aurantiaca, stems and leaves are of a beautiful deep violet color, which gives an appearance of the richest velvet.....	10
Agathæa Colestis, "blue Merguerite," flowers daisy shaped, delicate blue, with yellow disc; beds out well and flowers freely during winter.	25	Iresine (or Achyranthus) Lindenii, leaves blood red.....	10
Allysum Sweet, double flowered.....	10	Aurea Reticulata, crimson reticulated with gold.....	10
Antirrhinum (Snap Dragon), very useful for bedding out, having long showy spikes of flowers. They are of the easiest culture, growing and flowering freely in any soil. A very choice collection named. \$2 per dozen.	10	Acuminata, crimson leaves.....	10
Seedlings from finest strain, \$1 per dozen.....	10	Brilliantissima, stems and foliage exceedingly brilliant.....	10
Ageratum Blanch, very pure white.....	10	Collensii, narrow leaves, veined carmine and yellow, bright coral stems.....	10
Blue Tom Thumb, blue.....	10	Verschaffeltii, crimson stems and leaves.....	10
Cope's Gem, rich porcelain blue.....	10	Wallisii, reddish purple with intense metallic green.....	10
John Douglas, dwarf habit, flowers large, azure, Mexicanum, light blue.....	10	The above varieties of Iresine 75 cents per dozen each.	
White Cap, color white.....	10	Lobelia Blue King, lovely blue.....	10
White Tom Thumb, white.....	10	Paxtonia, blue, with white eye.....	10
Aloysia Citriodora, lemon Verbena.....	15	Many beautiful varieties, each.....	10
Asclepias Curassavica.....	20	Fine for suspended baskets, vases, &c.	
Alternanthera.....	10	Lotus Jacobeus, a pretty plant with pea-shaped flowers, nearly black; good bedder.....	10
Aurea Nana, this new variety is of as dwarf a habit as A. Paronychiodes Major, color a beautiful golden yellow without a tinge of red.....	10	Plumbago, a superb bedding plant.....	
Amoenia, magenta colored.....	10	Nierembergia Frutescens, a beautiful dwarf bedding plant.....	10
Amabilis, magenta colored.....	10	Gracilis, a very neat flowering plant.....	10
Brilliantissima.....	10	Pansy or Heartsease, from large show flowers. \$1 per dozen.....	10
Magnifica, very robust in growth.....	10	From finest fancy varieties. \$1 per dozen.....	10
Paronychiodes, bronzed, tipped with red.....	10	Hybrid Viola, this is the Viola with all the well-defined markings of the Pansy. \$1 per doz.	10
Tricolor, rose color.....	10	Penstemons, the beautiful plants have succeeded admirably with us, bedded out during summer. They are of dwarf, compact habit, with brilliant colored flowers, varying from bluish purple to carmine scarlet, produced in long spikes.....	
See Novelries.		Antoine Muzy, rosy vermillion, white throat....	15
Browallia Elata Coerulea Major.....	10	Henry King, glowing scarlet, white throat....	15
Centaurea Gymnocarpa, leaves of a down white, forming an admirable contrast with Coleus and other foliaged plants. \$1 per dozen.....	10	Souvenir de Mathieu Pernet, magenta crimson.....	15
Argenta Plumosa, this variety has elegant silvery surfaced leaves, long and Fern-like. \$1 per dozen.....	10	Tresor des Massifs, scarlet, white throat....	15
Babylonica, foliage silvery.....	10	White Beauty, pure ivory rose, tinted white... A choice collection, \$2.00 per dozen.	15
Candidissima, fine white foliage. \$1 per dozen.	10	Reullia Formosa.....	
Clementi, of robust growth, rosette-like leaf clusters from the base, with small serrated leaves. \$1 per dozen.....	10	Salvia.....	
Cineraria Maritima, silvery foliage.....	10	Amabilis, violet, shaded porcelain blue and white.....	10
Maritima Candidissima, foliage and branches pure silvery white. \$1 per dozen.....	10	Gordoniana.....	10
Caladium Esculentum, a magnificent plant where large, broad tropical foliage is desirable, grows about four feet high.....	15 cts. to 25	Leucantha, blue.....	10
Celosia Huttonii, foliage rich claret crimson.....	10	Splendens, scarlet sage.....	10
Cuphea Platycentra, pretty for bedding out.....	10	Alba (White Scarlet Sage), flowers white.....	10
Hysopifolia, dwarf, compact, flowers bright lilac.....	10	Heeri, flowers during winter.....	10
Echeveria Secunda Glauca, of a beautiful glaucous hue.....	15	Patens, the finest blue.....	15
Metallica, large leaves of a rich metallic hue.....	15	Vinca Rosea, pretty shrubby plant with rose-colored flowers.....	10
Mexicanum.....	15	Alba, white flowers.....	10
Retusa.....	15	Occlusa, white, with crimson eye.....	10
Sanguinea.....	15	There are no bedding plants that can equal these in value and beauty.	
Pretty dwarf plants similar to the House Leek.			
Euphorbia Sanguinea.....	15		
Atropurpurea.....	20		

HERBACEOUS PERENNIAL PLANTS.

Achillea ptarmica pleno, flowers double white...	25	Aquilegia Coerulea, a very fine blue Columbine from the Rocky Mountains.....	15
Anemone Japonica Alba (Honorine Jobert), makes a splendid bed for autumn flowering, large white flowers.....	15	Skinneri.....	15
Japonica Rubra, the crimson variety. A fine autumnal flowerer.....	15	Alba Pleno, double white.....	15
Vitifolia, a very white flowering species.....	20	Olympica, large purplish blue. Very showy...	15
Anthericum Liliago, pretty white flowers.....	25	Caryophylloides, striped.....	15
Lilium Major.....	30	Vulgaris, common.....	15
Aquilegia Chrysantha, its large golden yellow long spurred flowers are produced in great abundance.....	15	All beautiful hardy perennials.	
Chrysantha Coerulea, a variety of the last, with blue flowers.....	15	Astilba Japonica (Spiraea Japonica), a beautiful flower either for forcing or open ground. Large panicles of white flowers.....	25
Californica, a species of recent introduction. Very beautiful.....	15	Japonica Aurea Variegata, three-lobed green leaflets, richly traced throughout with gold colored veins.....	25
Wittmaniana, this is a remarkably fine new species, with large purplish blue flowers.....	15	Aster Oblongifolius, a very beautiful blue Aster from Texas, one of the latest autumn flowering plants.....	20
Glandulosa, blue, a superb species.....	15	Horizontalis.....	20

	Each.		Each.
Aster Longifolia Formosa, a handsome Aster...	20	Iberis, Cariacea, a strong grower; fine head, pure white flowers; fine for florists.....	20
Novae-Anglae, flowers bright red.....	20	Tenoreana, another fine variety; flowers white.....	20
Bocconia (Macleya) Cordata, large ornamental foliage.....	25	Iberica, a dwarf species, pretty.....	20
Campanula (Bell Flower).....	20	Pretty dwarf shrubby plants, which are covered with snow white blooms in the early spring months; hardy and of the easiest culture.....	25
Medium Calycanthema alba, white.....	20	Iris Setosa, flowers blue and purple.....	25
Calycanthema Coerulea, blue.....	20	Susiana, very large flowers, veined and spotted with black.....	25
Lilac, blue. Resembles the well-known old Canterbury Bell, but the corolla is much larger, and the calyx in addition is enlarged to nearly four inches in diameter, and changed to the same hue as that of the corolla.....	20	Iberica, grey veined with blackish brown.....	50
Callirhoe Involucrata, trailing habit, crimson flowers.....	20	Pumila, a pretty dwarf Iris.....	15
Cassia Bifolia, panicles of yellow flowers.....	20	Gigantea, a magnificent large species.....	50
Chelone obliqua.....	25	Kemferii (Species), white, marbled with purple, \$2.00 per dozen.....	20
Barbata, spikes, scarlet flower.....	25	Alexander Von Humboldt, flowers large, snow white, a fine variety.....	25
Commelina Coelestis, pretty azure blue flowers.....	10	Alex. Von Seibold, flowers large and showy, brownish black, striped with orange.....	25
Dictamnus Fraxinella Rubra, spikes of red flowers.....	25	Duchesse de Belcourt, flowers large brownish crimson, fine.....	25
Alba, white.....	25	Gloire de Rotterdam, flowers large, double white, fine.....	25
Dielytra Spectabilis (Bleeding Heart), long racemes of purplish crimson flowers.....	25	Le Souvenir, extraordinary large petals, very dark purple blue, light striped semi-double.....	25
Scoulerii, rosy crimson.....	25	Rutherford Alcock, fine violet crimson with golden eye and blue belt.....	25
Eximiae, rosy crimson.....	25	Lathyrus Latifolius, Everlasting Pea; rose colored flowers.....	20
bulbosa, bulbous rooted.....	20	Alba, a fine white variety.....	20
Delphinium Formosum, spikes of blue flowers.....	20	A most useful flower for florists.....	
Elatum Hybridum, Bee Larkspur.....	20	Lily of the Valley, single white.....	10

<i>Telephium rubrum</i>	15	<i>Minor alba variegata</i>	10
<i>Spectabile Purpureum</i> , large flat cymose head of flowers, 6 to 7 inches across.....	15	<i>Wahlenbergia Grandiflora</i> (<i>Campanula Grandiflora Corulea</i>), blue flowered.....	20
<i>Sieboldii</i> , a light green; a pretty plant.....	15	<i>Alba</i> , white.....	20
<i>Salvia</i> (Sage) <i>Rubicunda</i> , a pretty perennial species, crimson flowers.....	20	Very fine hardy perennials.	
<i>Pitcherii</i> , fine blue.....	20		
<i>Pitcheria Augustifolia</i> , this beautiful new variety is the finest of all blue <i>Salvias</i> ; hardy.....	20		
<i>Sweet William</i> , <i>Auricula eyed</i> , beautiful. \$1.00 per dozen.....	10		

BAMBOOS, GRASSES, &c.

<i>Arundo Donax Variegata</i> , this is the most stately and graceful of all known variegated grasses of the garden. Leaves 1½ to 3 feet in length, marked with broad silver stripes or margins their whole length.....	50	<i>Bambusa Ragamowski</i>	30
<i>Erianthus Ravennæ</i> , a tall reed like grass, hardy, <i>Gymnothrix Japonica</i> , Japanese grass.....	25	<i>Violascens</i>	30
<i>Eulalia Japonica Variegata</i> (see <i>Novelties</i>).....	25	<i>Simonii</i>	30
<i>Zebrina</i> (see <i>Novelties</i>).....	30	<i>Striatifolia Aurea</i> , the handsomest of the hardy Bamboos, requires a moist situation during summer.....	30
<i>Bambusa Fortunei Variegata</i> , beautifully variegated Palm-like leaves; it is a very ornamental plant.....	25	<i>Gynerium Argenteum</i> , pampas grass.....	25
<i>Aurea</i> , golden.....	25	<i>Panicum Variegatum</i> , beautiful trailing grass for baskets.....	15
<i>Metake</i>	30	<i>Phalaris Arundinacea Variegata</i> , ribbon grass, <i>Stenotaphyrum Glabrum Variegatum</i> , a fine silvery variegated grass.....	10
		<i>Thamnocalamus Falconerii</i> (<i>Bambusa falcata</i>).....	50

HYDRANGEAS.

<i>Hydrangea, Acuminata</i> , this exceedingly beautiful new variety has large heads of pink flowers withstands the sun well.....	25	<i>Hydrangea, Otaksa</i> , flowers large bright pink, tinged with blue, last a considerable time, a splendid plant.....	20
<i>Climbing Hydrangea</i> (see <i>New Trees and Shrubs</i>).....	25	<i>Involucrata Vera</i> , a beautiful and distinct new species.....	20
<i>Glaucæ</i> or <i>Nivea</i> , a native species, flowers white, <i>Hortensis</i> , the well-known garden variety, has immense heads of beautiful pink flowers.....	20	<i>Paniculata Grandiflora</i> , a highly ornamental shrub, with enormously large dense flower heads, opening pure white and tinted with rose in their mature bloom, flowers profusely during the summer, and perfectly hardy.....	25
<i>Elegantissima</i> , a very beautiful new variegated <i>Hydrangea</i> , foliage striped, spotted and splashed with yellow, very handsome.....	20	<i>Thunbergii Flora Percis</i> , a distinct species, much smaller foliage, and flat cymes of pretty blue flowers.....	25
<i>Imperatrice Eugenie</i> , large heads of pink flowers, tinted with blue.....	20	<i>Thomas Hogg</i> , this belongs to the <i>Hortensia</i> section of the family, but it is a far more free and abundant bloomer than any other; the flowers are of the purest white, of very firm texture, and continue in flower for a great length of time.....	20
<i>Variegata Speciosa</i> (new), in this striking variety the margins of the leaves are green, with a broad white band passing through the centre, <i>Stellata Flora Pleno</i> , a magnificent new Japanese variety, flower heads very large, double, of a bright pink.....	25		

EVERGREENS.

We have a large stock of Evergreen Trees and Shrubs at low rates. Small plants can be sent by Mail. Catalogue on application.

Aucuba, *Japonica*, the mottled leaves of this fine evergreen have long formed one of the most familiar objects in cultivation, but the scarlet berries have appeared but of late in conse-

quence of the absence until recently, or male plants. There are quite a number of fine varieties recently introduced, differing in the form or variegation of the leaf.....

	Each.		Each.
Aucuba, Himalaica , a fine evergreen, broad green leaves.....	50	Helianthemum , this is a pretty class of dwarf trailing shrubs, suitable for rock work, basels, &c.....	20
The following are some of the finest varieties:		Cupreum pleno , double, copper colored.....	20

***\$10 COLLECTION.**

Embraces the collection of plants as in the \$15 collection, from Monthly Roses to Hydrangeas, inclusive.

***\$5 COLLECTION.**

Half the \$10 collection.

*** PLANTS FREE BY MAIL.**

We have for some years forwarded plants in large numbers by mail to the most distant parts of the Union, as Texas, Utah and Pacific Coast with perfect success. All of which are properly labelled and carefully packed in boxes or oiled paper. The following plants will be sent by mail, prepaid, our selection, at the prices annexed, or any new plant can be forwarded in the same way. No order for less than one dollar will be filled. This rule is necessary, as the mailing of one or two cheap plants will not compensate us, in the hurry of business, for the time and labor of packing, directing, pre-paying postage, etc.

Either of the following collections free by mail, for \$1.00.

- | | |
|-------------------------------------|--|
| 10 Achyranthus, assorted. | 8 Gladiolus. |

TESTIMONIALS.

MO. BOT. GARDENS, ST. LOUIS, MO., *February 24, 1885.*

Sir:—I am truly pleased to see such plants as the above, offered at such low prices, those received from Mr. Saul last year, were most satisfactory.
J. G., *Gardener.*

WESTERVILLE, O., *February 17, 1885.*

MR. JOHN SAUL:

Dear Sir:—We received the box of plants; when we received it the mercury stood at 12° below zero, but we think there was not a plant injured, not even the Coleus, thanks for your careful packing. We are having a severe winter, last night 5° below zero. Yours truly,
S. S. S—D.

ST. PETER, MINN., *January 8, 1885.*

JOHN SAUL, ESQ., *Washington, D. C.*

Dear Sir:—Was very much pleased with the plant we got of you last year, and shall send you an order for quite a supply, as soon as we can do so with safety from frost.
MRS. M. E. P—L.

YOUNGSTOWN, ILL., *June 9, 1885.*

MR. JOHN SAUL:—Your bulb of "extra size" was duly received and appreciated, indeed it was the largest bulb I ever saw. It is growing nicely, and I am looking forward to a feast of beauty when it blooms. R. F. C—N.

SHARON HILL, *March 10, 1885.*

JOHN SAUL, *Washington, D. C.*:—The seeds have arrived safely and in order, accept thanks for prompt attention, also for extra ones or Premiums. Truly, &c.
M. B. C—D.

ITHACA, N. Y.

I have received your card of the 13th. The box of bulbs came in beautiful order and give satisfaction.

KATE L. W—R.

HITCHCOCK, *March 12.*

J. SAUL, ESQ.

Dear Sir: I received my box of roses in good order. I am pleased with them. Much obliged for your present. Respectfully,
H. P—S.

LEESBURG, FLA., *March 21, 1885.*

Dear Sir: Thanks for plants received in good condition. Yours truly,
J. W. H—H.

BALTIMORE, *March 28, 1885.*

JOHN SAUL, ESQ.

Dear Sir: The plants were received in good condition. Your selection of them was highly appreciated and your liberal addition I am forced to acknowledge. Accept my many thanks. Yours most respectfully,
GEO. L. HAMEL.

GRANTSVILLE, CARRETT CO., MD., *April 3, 1885.*

Dear Sir: Trees and plants received this day. Many thanks for many extras. The small plants, Lantanas, &c., were put up very nicely.
S. J. M—R.

UNIVERSITY OF VA.

Dear Sir: The plants arrived in good order and are very nice ones. Respectfully,
C. P. V—E.

SOUTH LAKE WEIR, FLA., *April 24.*

MR. JOHN SAUL: I received the box of plants you were so kind to send. Many thanks for them, they came in fine condition and are all living now and look well.
MRS. C. L. P—R.

TARBORO, N. C., *April 27, 1885.*

My Dear Sir: The box of plants arrived in good order and are beautiful specimens of vigorous growth.
JOS. BLOUNT C—E.

GRACELAND, *May 1, 1885.*

Dear Sir: Your favor of Clematis and Styrax received in good condition. Very respectfully,
GRACELAND CEMETERY COMPANY.

DOLLINS, *May 12, 1885.*

Package of plants duly to hand. All in very good order, and am much pleased with the variety. Very much obliged. Respectfully,
MRS. E. S. C—S.

BAKERSFIELD, CALA., *May 11, 1885.*

Dear Sir: Plants advised by your card of May 1st—Ferns, Begonia, &c.—duly received in splendid condition. If not saved it will be my own fault. Yours truly,
C. B—R.

June 6, 1885.

Dear Sir: My plants arrived in excellent condition, and I am much obliged for your promptness.
MRS. WM. H—S.

SCOTLAND NECK, N. C., *May 11, 1885.*

MR. J. SAUL:

Dear Sir: I feel that I have been remiss in not writing before to acknowledge receipt of the flowers I ordered, which arrived in due time and gave complete satisfaction. I have bought a great many flowers, and this was the best packed box I have ever received.
A. L. H—T.

DEMOREST'S ILLUSTRATED MONTHLY,

The Model Parlor Magazine of the World, Combining the Essentials of All Others.

The increasing popularity of **DEMOREST'S MONTHLY MAGAZINE**, a popularity extending over twenty years, is ample proof that each succeeding year finds it improved in its vitality, beauty and attractiveness; thus meriting the enthusiastic encomiums bestowed upon it by its wide circle of intelligent and critical readers.

The peculiar features of this Magazine render it absolutely indispensable in the family circle. Its mission is to refine, elevate and instruct. Not only does it show how home can be beautified and adorned, but it points out the way by which the qualities of head and heart can be so cultivated that they will shed around the beneficent light of intellectual and moral beauty. Thus it is a safe family guide, a counselor and friend for the young, while those older can find profit and pleasure in its pages.

So varied and instructive are its departments, combining as they do, **Literature, Art, Architecture, Poetry, Floriculture, House and Home Matters, Work Table, Fashions, Editorials on Topics of the Day, Science at Home, Kitchen, Ladies' Club, Review of New Books, Common Topics**, that it forms a valuable compendium of desirable and useful information for everybody.

Its Literary Department is richly stored with **SERIALS, SHORTER TALES, BIOGRAPHICAL and HISTORICAL SKETCHES, ESSAYS, EDITORIALS, POEMS, and MISCELLANEOUS ARTICLES**, from the pens of the best writers of Europe and America; thus furnishing the most choice and popular literature of the day.

Its Artistic Department possesses unusual interest. Each number is profusely illustrated with a beautiful **ART PICTURE** in **OIL** of rare delicacy of finish, or well executed **STEEL** and other **ENGRAVINGS** of celebrated pictures, by world-renowned artists of ancient and modern times, and **FASHION ILLUSTRATIONS**, which for beauty variety and reliability are not equaled by those of any magazine in the world.

Its Scientific, Architectural, Floricultural, Household and Fashion Departments are equally full and attractive; the whole forming a Magazine which most admirably combines the useful and ornamental, the instructive and entertaining, and which for beauty, utility, originality and cheapness is without a peer in the field that it occupies.

Any one desiring a sample copy of this thoroughly comprehensive and elegant **LITERARY and FASHION MAGAZINE**, can obtain the same by forwarding **TWENTY CENTS. YEARLY SUBSCRIPTION, TWO DOLLARS.**

Demorest's Illustrated Monthly Magazine can be purchased (and subscriptions taken) at any of Mme. Demorest's agencies, all booksellers and newsdealers, and railroad news depots. **W. JENNINGS DEMOREST, Publisher, 17 East 14th Street, New York.**

I have also been Awarded for several years, leading Premiums by the MARYLAND HORTICULTURAL SOCIETY and DISTRICT OF COLUMBIA HORTICULTURAL SOCIETY for Dracænas, Crotons, Foliage Plants, Stove and Greenhouse Plants, Ferns, &c. In Cut Flowers, for Dahlias, Roses, Phloxes, Herbaceous Plants, &c.

At the NATIONAL FAIR ASSOCIATION, WASHINGTON, D. C., I have also been awarded the leading Premiums.

—❖ SEAFORTHIA ❖ ELEGANS ❖—

This is a most graceful Palm, eminently adapted for the decoration of the greenhouse and garden. It also makes a fine window plant; leaves are very long and gracefully arched, dark green, the whole plant perfectly smooth; a grand decorative plant.

Price per Plant, 50 cts., \$1.00 to \$3.50.
